This book examines the historical and socio-cultural connections across the SAARC region, with a special focus on the relationship between India and Sri Lanka. It investigates hitherto unexplored narratives of history, popular culture and intangible heritage in the region to identify the cultural parallels and intersections that link them together. In doing so, the volume moves away from an organised and authorised heritage discourse and encourages possibilities of new understandings and re-interpretations of cross-cultural communication and its sub-texts. Based on original ethnographic work, the book discusses themes such as cultural ties between India and Sri Lanka, exchanges between Arthur C. Clarke in Sri Lanka and Satyajit Ray in India, cultural connectivity reflected through mythology and folklore, the influence of Rabindranath Tagore on modern dance in Sri Lanka, the introduction of railways in Sri Lanka, narrative scrolls and masked dance forms across SAARC countries, Hindi cinema as the pioneer of cultural connectivity, and women's writing across South Asia. Lucid and compelling, this book will be useful for scholars and researchers of cultural studies, South Asian studies, cultural anthropology, sociology, popular culture, cross-cultural communication, gender studies, political sociology, cultural history, diplomacy, international relations and heritage studies. It will also appeal to general readers interested in the linkages between India and Sri Lanka. An ethnographic study on internal travel analysed through the perspectives of Sinhala tourists going from the South to the war-ravaged North. Warzone Tourism in Sri Lanka explores travellers' narratives that reflect the experiences and interactions of those

going to northern Sri Lanka, and argues that the discourses that emerge are not simply based on leisure and innocence of travel. Rather, they have much to do with the thirty-year civil war in Sri Lanka and how it has impacted the inter-ethnic relations in the country, creating two mutually antagonistic forms of nationalism—Tamil and Sinhala. This book is a significant contribution to academia in light of the disruption of civilian travel to northern Sri Lanka during the civil war, effectively barring face-to-face access between citizens, and the narratives which emerge from post-war travel, highlighting the resentment between the two main ethnic groups. The Sri Lankan medicinal system predominantly utilizes herbs and spices for the treatment of various ailments. This is mostly because Sri Lanka is a tropical country, a biodiverse hot-spot blessed with a plethora of flora and fauna. *Traditional Herbal Remedies of Sri Lanka* looks at the traditional medicinal practices of the country that utilize plant material from a cultural, philosophical and scientific perspective. When it comes to the scientific aspects, several Sri Lankan herbs have been in the spotlight for possessing bioactive constituents with promising therapeutic effects. It is hoped that these will be considered as strong candidates to combat currently prevailing global disease conditions.

Key Features: Reveals the science behind the traditional wisdom passed down in Sri Lanka's long history of using herbal medicines Emphasizes the increasing global interest in botanical drugs Reviews the hot topic of Sri Lankan herbs, which possess bioactive constituents and have promising therapeutic effects Aids the international natural product communities to better understand the herbal resources in Sri Lanka Since the late 1970s civil war has left Sri Lanka in an almost permanent state of crisis; conventional histories of the country by liberal and Marxist scholars in the last two decades have thus tended to focus on the state's failure to accommodate the needs and demands of the minorities. The entire history of the twentieth century has been tied to this one key issue. *Sri Lanka in the Modern Age* offers a fresh perspective based on new research. Above all, the author has written a history of the peoples of Sri Lanka rather than a history of the nation-state.

The Eighth and Final Review under the Stand-By Arrangement discusses policies and reforms undertaken by the Sri Lankan authorities. 2012 has shown robust growth in GDP supported by increased agricultural and construction activity. However, a weakening global demand has been an impediment to real GDP growth. The authorities looked forward to continued engagement with the IMF and intended to discuss the possibility of continuing financial support for their economic development agenda under the Extended Fund Arrangement. Despite all of society's advances, our problems proliferate. Wars abound, environmental degradation accelerates, economies topple overnight, and pandemics such as AIDS and tuberculosis continue to spread. The Internet and other media help to disseminate knowledge, but they've also created an "info-glut" and left us too little time to process it. What's more, advances in technology have made the world so bewilderingly fast-paced and complex that fewer people are able even to grasp the problems, let alone generate solutions. That space between the problems that arise and our ability to solve them is "the ingenuity gap," and as we careen towards an increasingly harried and hectic future, the gap seems only to widen. As he explores the possible consequences of this gap, Thomas Homer-Dixon offers an absorbing assessment of the state of the world and our ability to fix it. Culling from an

astounding array of fields—from economics to evolution, political science to paleontology, computers to communications –he integrates his vast knowledge into an accessible and engaging argument. This is a book with profound implications for everyone that we can ill afford to ignore. This book provides the global mathematics education community with information on the recent and current status of the teaching of mathematics in a group of island nations in the Asia-Pacific region. Sri Lanka, Indonesia, Japan, the Philippines, Australia, Papua New Guinea, New Zealand, and twelve nations in the South Pacific Ocean. It is the third volume in a series conceived by Dr Bruce Vogeli of Columbia University Teachers College and published by WSP, aimed at producing contemporary accounts of mathematics teaching in a world-wide group of nations. Previous volumes have covered Central and South American nations and a selection of Muslim nations respectively.

Scientific Essay from the year 2011 in the subject Pedagogy - The Teacher, Educational Leadership, , language: English, abstract: Krieg (2005) in his review of impact of teacher gender on student gender states that while a large body of research focuses on the gender of students, less research explores the impacts of a teacher's gender on students (Hopf & Hatzichristou 1999). Evidence suggests that male teachers tend to be more authoritative whereas female teachers tend to be more supportive and expressive (Meece, 1987). A survey of 20 teachers indicates that male teachers are likely to select a more aggressive disciplinary approach toward boys while teachers of either gender tended to ignore boys' disruptive behavior than that of girls when the behavior was not aggressive (Rodriguez, 2002). Krieg (2005) further reveals that researchers have found that teachers interact differently with students of similar gender than they do with students of opposite gender Einarsson, C., & Granström, K. (2002) This includes evidence suggesting disciplinary procedures and proclivity to discipline vary by both student and teacher gender. Likewise, a teacher's perception of student characteristics and abilities appear to systematically vary by gender. Other studies find male students benefit at the expense of female students in the amount and quality of interaction received from teachers of both genders. What has yet to be determined is how these differences in discipline, perceptions of student ability, and interactions between student and teacher influence student outcomes as measured by standardized exams.

'Colombo Port Bunkering Privatisation' under IMF, World Bank and ADB privatization agenda, discloses a scandalous privatization, annulled as illegal and fraudulent by a 3-Judge Supreme Court Bench of Sri Lanka, presided by Chief Justice, Sarath N. Silva; compelling Secretary, Finance Ministry / Secretary Treasury, P.B. Jayasundera to resign. It involved, John Keells Holdings Ltd., an UN Global Compact Co. committed to combat fraud and corruption. It is an 'eye opener' on socio-political realities, of those holding selected and elected influential and powerful public office, including Secretary, Finance Ministry, P.B. Jayasundera, compromising national and public interest, with scant regard for the 'rule of law', and

hollow dictates by international agencies, on governance, transparency and level playing field. President Chandrika Bandaranaike Kumaratunga, in a Memorandum to Cabinet Ministers opposed this privatization. Prime Minister Ranil Wickremesinghe disregarding the President had pushed the deal, with his Advisor, former Secretary, Ministry of Finance, R. Paskaralingam; approved by Economic Sub-Committee of Cabinet, including Finance Minister, K.N. Choksy, PC. It reveals condoning of fraud and corruption by confidantes of those at helm in a country; with governments and society uninhibitedly bestowing upon corrupt miscreants, even more recognition and position, without arraigning them, as warranted, before the law; President Mahinda Rajapakse re-appoints, P.B. Jayasundera, Secretary, Finance Ministry / Secretary Treasury. Susantha Ratnayake, continues as Chairman, John Keells, and helms Ceylon Chamber of Commerce; appointed Chairman, Sri Lanka Tea Board, by Government New Chief Justice, J.A.N. de Silva and other Supreme Court Judges act to accommodate necessity of President Mahinda Rajapakse, when P.B. Jayasundera is permitted to be re-appointed to same powerful position. A sole woman, Justice Shiranee Tilakawardena courageously dissents, upholding principles of moral turpitude and democracy to keep organs of State within the law - 'anyone would balk at such re-appointment'; 2 pages of Judgment suppressed from media. This book looks at the mass migration of refugees into India during the Sri Lankan civil war, the lives of the displaced people in refugee camps and the politics around the issue. It analyses the citizenship policies in India and the social, economic, psychological, political and legal implications of the laws on the lives of Tamil refugees. The book examines the protracted refugee situations in other parts of the globe to build a comparative case study of the Sri Lankan refugees. It delves into the stories and lives of these people in their home country before the war, the crisis and trauma of war, and the experience of living in refugee camps. The volume looks at the role played by the state government of Tamil Nadu, the Indian government and NGOs towards the protection of these refugees and state of facilities for health, safety, education, among others in the camps. It also discusses the possibility of integration and solutions like voluntary repatriation or the granting of citizenship for the people living in these camps. This book will be a useful resource for scholars and researchers of refugee and border studies, human rights, political studies, international relations, political sociology, peace and conflict studies, war and strategic studies, and South Asian studies. Focusing on the historical events of post-independence Sri Lanka, S. J. Tambiah analyzes the causes of the violent conflict between the majority Sinhalese Buddhists and the minority Tamils. He demonstrates that the crisis is primarily a result of recent societal stresses—educational expansions, linguistic policy, unemployment, uneven income distribution, population movements, contemporary uses of the past as religious and national ideology, and trends toward authoritarianism—rather than age-old racial and religious differences. "In this concise, informative, lucidly written book, scrupulously documented and well indexed, [Tambiah] trains his dispassionate anthropologist's eye on the tangled roots of an urgent, present-day problem in the passionate hope that enlightenment, understanding, and a generous spirit of compromise may yet be able to prevail."—Merle Rubin, *Christian Science Monitor* "An incredibly rich and balanced analysis of the crisis. It is exemplary in highlighting the general complexities of ethnic crises in long-lived societies carrying a burden of historical memories."—Amita Shastri, *Journal of Asian Studies* "Tambiah makes an eloquent case for pluralist democracy in a country abundantly endowed with excuses to abandon such an approach to politics."—Donald L. Horowitz, *New Republic* "An excellent and thought-provoking book, for anyone who cares about Sri Lanka."—Paul Sieghart, *Los Angeles Times Book Review* Covers mainly events of the post-1948 political scene in Sri Lanka. Concerns the treatment of the Tamil minority in Sri Lanka. Through a succession of key stages since Sri Lanka (formerly Ceylon) became independent in 1948, its Tamil minority, historically concentrated in the north and east but with an important segment in Colombo, became alienated from the Sinhalese majority and, after peaceful opposition failed to secure its rights, resorted to an armed struggle. The Tamil Tigers (LTTE) today appear to hold the key to their people's future. While they have suffered setbacks, including the loss of the Tamil capital, Jaffna, they remain a potent guerrilla force, able to strike with impunity at both military and civilian targets. The Tigers' grip on the Tamil population seems

secure, as does their overseas support and funding from Tamil exiles in Britain, Canada, and Australia. This book offers a concise history of the Sri Lankan Tamil nation, its culture, social make-up, and political evolution. In a final chapter, A. J. V. Chandrakanthan gives a first-hand account of life and attitudes inside the embattled Tamil areas today. A. Jeyaratnam Wilson teaches in the Department of Political Science at the University of New Brunswick. He is the author of *The Break-Up of Sri Lanka* and S. J. V. Chelvanayakam and the *Crisis of Sri Lankan Tamil Nationalism*. A. J. V. Chandrakanthan teaches in the Department of Theology at Concordia University, Montreal. This paper discusses Sri Lanka's First Review Under the Extended Arrangement Under the Extended Fund Facility (EFF) and Request for Modification of Performance Criterion (PCs). Performance under the program has been largely satisfactory. All end-June quantitative PCs were met, together with all indicative targets for June. The structural benchmarks due in July–September were not met, but the authorities have been making progress toward their completion which is now scheduled for December 2016. In light of the progress so far and the authorities' policy commitments going forward, the IMF staff supports the completion of the First Review under the EFF. Since the late 1970s, Sri Lanka has undergone a socio-economic transformation, from protectionism towards economic liberalisation and increasing integration into the world economy. Through a systematic comparison of these periods of economic change (1956–1977, and 1977 to the present), Angela W. Little and Siri T. Hettige examine the impact of this transformation on education, youth employment and equality of opportunity in Sri Lanka. The book charts Sri Lanka's shift from a predominantly agricultural economy to one dominated by services and manufacturing, a reduction in unemployment, rising educational and occupational levels, expectations and achievements, and a reduction in poverty. In turn, it reveals a growing role for the private sector and foreign interests in post-secondary education and a modest growth in private education at the primary and secondary levels, as well as widening social disparities in access to qualifications, training and skills. The Sri Lankan experience of, and engagement with, globalisation has been tempered by a long-running ethnic conflict that hindered economic and social development and diverted considerable public funds into defence and war. Now that the war is 'won', the challenge is how to invest in human resource development and the fulfilment of the expectations of youth from all ethnic and social groups. This challenge requires serious policy analysis, the generation of more state revenues, the reallocation of existing public resources, and a political commitment to the winning of a sustainable peace and stability. This book makes an important contribution to the broader international literature on the implications of globalisation for education policy and practice, and to the interaction of exogenous and endogenous forces for educational change. It deals with the tension between the high social demand for education and the growing demand for specialised skills in a changing economy. As such, it has a wide interdisciplinary appeal across education policy and politics, Asian education, South Asian society, youth policy, sociology of education, political economy of social change, and globalisation. *Empowered Sri Lanka*, Sri Lanka's development policy document, envisions reorienting the country toward a modern and high-value-adding economy that is able to compete in the global market. Expanding the middle class and improving the living standards by creating one million jobs are at the core of the policy. This report seeks to support the realization of that vision by analyzing Sri Lanka's employment situation and drawing recommendations from the analysis. The report starts with an overview of the labor market in relation to both supply and demand. It then looks at the issues of aging and skills generation. The concluding chapter examines links between labor market trends, informality, and poverty. This study is a co-publication of the Asian Development Bank and the International Labour Organization. *Watkins' Problematic Identities* examines nine novels by women writers of the Sri Lankan diaspora. Her study reveals identity in this fiction as notably gendered and expressed through resonant images of mourning, melancholia, and other forms of psychic disturbance. This book is the revised version of his doctoral thesis on *Political Violence in the Third World: A Case Study of Sri Lanka: 1971-1987*. It is a systematic, empirical study of the left-wing insurrection by the Janatha Vimukthi Peramuna (JVP) in April 1971 and the ethnic insurrection by the Liberation Tigers of Tamil Eelam (LTTE) up to the Indo Sri Lanka Accord of 1987.

This is an in-depth study regarding a crucial phase of the on-going political violence in Sri Lanka. The book emphasizes that the root cause for the Political Violence in Sri Lanka is not only confined to ethnic groups but also on socio-economic basis too. The study explores the socio-economic and political background that paved the way to the origin and development of underground movements, the genesis of ideologies, the strategies and tactics adopted leading to the escalation of political violence. This book will therefore, serve as a core reading material to understand the political violence in Sri Lanka. Consequently, it will serve as a very useful authentic reference material for the students of political science and policy makers concerned in search of a sustainable consensus and compromise for setting the political violence in Sri Lanka. Over 1,100 alphabetically arranged entries examine the history, geography, people, government, economy, art, and religions of Sri Lanka. Persistent skills shortages have constrained new investments and economic growth in Sri Lanka. This study assesses the skills deficit in two priority sectors—food and beverages, and electronics and electricals. It recommends supply-side responses to increase the quantity and quality of labor in these areas. The recommendations include raising awareness among young people about the sectors' employment potential, upgrading courses, providing professional development for instructors, and establishing collaborations between businesses and training institutes. Most knowledge about adolescent development is based on adolescents living in the United States or Europe. "The Thoughts of Youth" reports a study in which over 6000 adolescents from 20 regions of the world, including the Americas, Europe, Africa, and Asia, described an ideal woman or ideal man. Adolescents' images of the ideal person reflect their personal values about gender roles, their expectations and plans for the future, and their cultural values. "The Thoughts of Youth" presents the teenagers' perspectives - their descriptions, drawings, and interpretations of their peers' responses. Issues of importance to adolescent development are addressed, including morality and altruism, physical appearance and attractiveness, self and identity, intelligence and schooling, work, fun and leisure, family relationships, and romance. In contrast to the stereotype that adolescents are preoccupied with appearance and popularity, adolescents in this study endorsed kindness, honesty, helpfulness, and a positive attitude toward children. This book documents both the universal attitudes of adolescents and the ways that teenagers' views differ by gender, culture, and economic condition. The book provides a detailed historically-based analysis of the origin, evolution and potential resolution of the civil conflict in Sri Lanka over the struggle to establish a separate state in its Northern and Eastern provinces. This conflict between the Sri Lankan government and the secessionist LTTE (Liberation Tigers of Tamil Eelam) is one of the world's most intractable contemporary armed struggles. The internationally banned LTTE is considered the prototype of modern terrorism. It is known to have introduced suicide bombing to the world, and recently became the first terrorist organization ever to acquire an air force. The 'iron law of ethnicity' - the assumption that cultural difference inevitably leads to conflict - has been reinforced by the 9/11 attacks and conflicts like the one in Sri Lanka. However, the connections among ethnic difference, conflict, and terrorism are not automatic. This book broadens the discourse on the separatist conflict in Sri Lanka by moving beyond the familiar bipolar Sinhala versus Tamil ethnic antagonism to show how the form and content of ethnicity are shaped by historical social forces. It develops a multipolar analysis which takes into account diverse ethnic groups, intra-ethnic, social class, caste and other variables at the local, regional and international levels. Overall, this book presents a conceptual framework useful for comparative global conflict analysis and resolution, shedding light on a host of complex issues such as terrorism, civil society, diasporas, international intervention and secessionism. In this voluminous Book in a series by the Author on corruption, fraud and economic crime, with indepth analysis, transcending forensic accounting, he brilliantly reveals, with incisive diametrics, irrefutable evidence of criminality, in the construction of Colombo Hilton Hotel by Mitsui & Taisei, Japan, with Architects, Kanko Kikaku Sekkeisha Yozo Shibata & Associates successful civil prosecution by Author led to Japanese writing-off US \$ 207 Mn. He establishes beyond reasonable doubt, that original Architectural Plans had been suppressed / destroyed by a staged fire, with amended Architectural Plans surreptitiously substituted being cannibalized Sheets, with incongruous elevations,

whereby such Plans could not be approved. Meticulously probing into elevations on Floor Sheets and Cross-Sectional Sheets, which crucial aspect had been overlooked by professional architectural investigations, he proves the shortfall of floors, with the elevations on tampered Sheets bearing tell tale evidence of being identical, with elevations in the cross-sections of the Project Plan, upon which Hilton International formulated Profitability Forecasts, to obtain State Guarantees from Sri Lanka Government, to finance this construction, which was a major fraud perpetrated on the people, rendering such guarantees null and void. Shockingly revealed are perverse endeavours, including by Auditors, KPMG Ford, Rhodes, Thornton & Co., to cover-up this massive fraud, involving upper echelons, with socio-political / international ramifications. Appallingly, criminal investigations were significantly abandoned, on advice of Attorney General. Securities Exchange Commission colluded to cover-up, whilst Chartered Accountants Institute endeavoured to whitewash miscreants. This is a revealingly absorbing Book of real experiences of the Author, in exposing and combating, a despicable fraud on the people, which to him was a crime against humanity, and would be invaluable to investigators and prosecutors of commercial frauds and crimes, and civil society urging equal enforcement of the rule of law.
