American government securities); 1928-53 in 5 annual vols.: [v.1] Railroad securities (1952-53. Transportation); [v.2] Industrial securities; [v.3] Public utility securities; [v.4] Government securities (1928-54); [v.5] Banks, insurance companies, investment trusts, real estate, finance and credit companies (1928-54) This revised and updated second edition you a complete, relevant, and recent reference guide to oncology advanced practice nursing. Features include: 158 chapters and over 1,000 pages of detailed information on medical symptoms, diagnoses, and patient care concerns; updated tables and figures highlighting key content, and Extensive appendices, shedding light on concepts discussed throughout the book. Describes the major departments and agencies of the federal government and lists their officials Describes the major departments and agencies of the federal government and lists their officials Annual. Continues United States Government organization manual. The Manual provides comprehensive information on a large number of U.S. government agencies. Along with entries on the agencies of the executive, judicial, & legislative branches of the government, users will also find information on quasi-official agencies, international organizations in which the U.S. participates, & other boards, commissions & committees. The Declaration of Independence & the Constitution of the United States are also included. This laminated edition features a sturdy cover, extra strong bindings, & heavy, acid-free paper. Recommended in: ALA's Guide to Reference Books, Walford's Guide to Reference Material. Describes 250 occupations which cover approximately 107 million jobs. Annual. Continues United States Government organization manual. This book provides a comprehensive introduction to current state-of-the-art auto-segmentation approaches used in radiation oncology for auto-delineation of organs-of-risk for

thoracic radiation treatment planning. Containing the latest, cutting edge technologies and treatments, it explores deep-learning methods, multi-atlas-based methods, and model-based methods that are currently being developed for clinical radiation oncology applications. Each chapter focuses on a specific aspect of algorithm choices and discusses the impact of the different algorithm modules to the algorithm performance as well as the implementation issues for clinical use (including data curation challenges and auto-contour evaluations). This book is an ideal guide for radiation oncology centers looking to learn more about potential auto-segmentation tools for their clinic in addition to medical physicists commissioning auto-segmentation for clinical use. Features: Up-to-date with the latest technologies in the field Edited by leading authorities in the area, with chapter contributions from subject area specialists All approaches presented in this book are validated using a standard benchmark dataset established by the Thoracic Auto-segmentation Challenge held as an event of the 2017 Annual Meeting of American Association of Physicists in Medicine This book is a compilation of the standards and procedures of the Nutritional Support Teams at Parkland Memorial Hospital and the Veterans Administration Medical Center in Dallas. It provides guidelines for the management of patients requiring intensive nutritional support (i.e., tube feeding). CD-ROM contains: WinDasi software -- Manual -- Four exercises. A nationally recognized, best-selling reference work. An easy-to-use, comprehensive "encyclopedia" of today's occupations & tomorrow's hiring trends. Describes in detail some 250 occupations -- covering about 104 million jobs, or 85% of all jobs in the U.S. Each description discusses the nature of the work; working conditions; employment; training, other qualifications, & advancement; job outlook; earnings; related occupations; & sources of additional information. Revised every 2 years.
