As well as examining a wide variety of types of primary sources, published and unpublished, quantitative and qualitative, available for the study of many places, the book also provides information on certain specific sources and some individual collections, in particular those of the National Archives.

Religious Zionism and the Settlement Project Dec 23 2021 An in-depth account of the ideology driving Israel's religious Zionist settler movements since the 1970s. The Jewish settlements in disputed territories are among the most contentious issues in Israeli and international politics. This book delves into the ideological and rabbinic discourses of the religious Zionists who founded the settlement movement and led it to this day. Based on Hebrew primary sources seldom available to scholars and the public, Moshe Hellinger, Isaac Hershkowitz, and Bernard Susser provide an authoritative history of the settlement project. They examine the first attempts at settling in the 1970s, the evacuation of Sinai in the 1980s, the Oslo Accords and assassination of Yitzhak Rabin in the 1990s, and the withdrawal from Gaza and the reaction of radical settler groups in the 2000s. The authors question why the evacuation of settlements led to largely theatrical opposition, without mass violence or civil war. They show that for religious Zionists, a "theological-normative balance" undermined their will to resist aggressively because of a deep veneration for the state as the sacred vehicle of redemption. "This is a well-written book of sound scholarship that makes an important contribution to the research on settlers' rabbis. The authors refute popular arguments that condemn the rabbis as 'radicals,' instead showing how complex is their worldview." — Motti Inbari, author of Jewish Fundamentalism and the Temple Mount: Who Will Build the Third Temple?

Contention and Regime Change in Asia Dec 11 2020 In undemocratic settings, where modes of political participation and interest mediation are severely limited, protest may become a major form of political action. When and why does popular upsurge occur in such a setting? What form does it take and what do people ask for? When does protest become regime-threatening? And how does the authoritarian government react? This book explains the dynamics we observe during regime change facing high contention, in which much is at stake both for those in power and their challengers. Focussing on the experiences of democratizing countries in Asia, the author shows that even in the chaotic context of regime change there are regularities in when and how people mobilize. The book applies concepts and methods used in social movement research to the study of regime change and is based on a newly collected protest event dataset of 20 years for Indonesia, South Korea, and Thailand.

Remembering Lola Jul 06 2020 This is the story of a family growing up in rural Iowa in the early years of the 20th century. Small towns were epicenters of rural life in those days; travel was limited to horse and buggy over dirt roads or by train travel on primitive railroads. The local weekly newspaper was the main source of information for rural people. Television and radio were non-existent in those days. Fortunately for our family, Lola had attended the Howe Academy and graduated from Iowa Wesleyan University in their early days. She was convinced of the value of higher learning. Our hometown, Wellman, was only 25 miles from Iowa City and the two places were connected by rail lines. The University of Iowa publicity department supplied information about musical concerts, athletic contests, plays etc. to area weekly newspapers. The University paid for this publicity by providing complimentary tickets to us. We attended many performances.

The Sacred Cause of Union Sep 19 2021 The Sacred Cause of Union highlights Iowans' important role in reuniting the nation when the battle over slavery tore it asunder. In this first-ever survey of the state's Civil War history, Thomas Baker interweaves economics, politics, army recruitment, battlefield performance, and government administration. Scattered across more than a dozen states and territories, Iowa's fighting men marched long distances and won battles against larger rebel armies despite having little food or shelter and sometimes poor equipment. On their own initiative, the state's women ventured south to the battlefields to tend to the sick and injured, and farm families produced mountains of food to feed hungry federal armies. In the absence of a coordinated military supply system, women's volunteer organizations were instrumental in delivering food, clothing, medicines, and other supplies to those who needed them. All of these efforts contributed mightily to the Union victory and catapulted Iowa into the top circle of most influential states in the nation. To shed light on how individual Iowans experienced the war, the book profiles six state residents. Three were well-known. Annie Wittenmyer, a divorced woman with roots in Virginia, led the state's efforts to ship clothing and food to the soldiers. Alexander Clark, a Muscatine businessman and the son of former slaves, eloquently championed the rights of African Americans. Cyrus Carpenter, a Pennsylvania-born land surveyor anxious to make his fortune, served in the army and then headed the state's Radical Republican faction after the war, ultimately being elected governor. Three never became famous. Ben Stevens, a young, unemployed carpenter, fought in an Iowa regiment at Shiloh, and then transferred to a Louisiana African American regiment so that he could lead the former slaves into battle. Farm boy Abner Dunham defended the Sunken Road at the Battle of Shiloh, before spending seven grim months in Confederate prison camps. The young Charles Musser faced pressure from his neighbors to enlist and from his parents to remain at home to work on the farm. Soon after he signed on to serve the Union, he discovered that his older brother had joined the Confederate Army. Through the letters and lives of these six Iowans, Thomas Baker shows how the Civil War transformed the state at the same time that Iowans transformed the nation.

The National Tribune Civil War Index Jul 30 2022 The National Tribune was the premier Union veterans' newspaper of the post-Civil War era. Launched in 1877 by a New York veteran to help his comrades and sway Congress to pass better pension laws, a short time later the National Tribune began publishing firsthand accounts penned by the veterans themselves, and did so for decades thereafter. This rich, overlooked, and underused source of primary material offers a gold mine of eyewitness accounts of battles, strategy, tactics, camp life, and much more. From generals to privates, the paper printed articles and long serials on everything from major battles such as Gettysburg and Antietam, to arguments about which battery fired the shot that killed General Leonidas Polk, whether Grant's army was surprised at Shiloh, and just about every topic in between. Unbeknownst to many, a number of Confederate accounts were also published in the paper. Decades in the making, Dr. Rick Sauers' unique multi-volume reference work *The National Tribune Civil War Index: A Guide to the Weekly Newspaper Dedicated to Civil War Veterans, 1877-1943* lists every article (1877-1943). The first two volumes are organized by author, his unit, title, and page/column location. The third volume—the main index—includes a subject, author, and unit guide, as well as a "Unit as Sources" index that lists articles that mention specific commands but are written by soldiers who were not members of that unit. As an added bonus, this reference guide includes the contents of both the National Tribune Scrapbook and the National Tribune Repository, two short-lived publications that included articles by veterans, and a listing of the major libraries that have National Tribune holdings. Thanks to Dr. Sauers, Civil War researchers and writers worldwide now have easy access to the valuable contents of this primary source material.

Democracy in Our America Aug 19 2021 One of America's most distinguished political theorists examines what happens when national politics enters a small New England town After the election of 2016 and, even more urgently, after the election of 2020, many citizens looked at the economic and cultural divisions that were causing deep disruptions in American politics and asked, "What is happening to us?" Paul W. Kahn explores these fundamental changes as they show themselves in a small New England town--his home of twenty-five years, Killingworth, Connecticut. His inquiry grounds a democratic theory that puts volunteering, not voting, at its center. Absent active participation, citizens lose the capacity for judgment that comes from working with others to solve real problems. Volunteering, however, is under existential threat today. Changes in civil society, commerce, employment, and public opinion formation have isolated families from each other and from their communities. Even middle-class families live under financial stress, uncertain of their children's future, and without the support of civil society. Local media has disappeared. Residents do not have the time, information, or interest to volunteer. Under these conditions, national polarization enters local politics, which becomes yet another site for national conflict. To save our democracy, Kahn concludes, we need to find ways of matching opportunities for participation to the ways we live our lives today.
