Here's the newest twist on the familiar tale of There Was an Old Lady Who Swallowed A Fly. There was a cold lady who swallowed some snow. I don't know why she swallowed some snow. Perhaps you know. This time, the old lady is swallowing everything from snow to a pipe, some coal, a hat, and more! With rollicking, rhyming text and funny illustrations, this lively version will appeal to young readers with every turn of the page. And this time, there's a surprise at the end no reader will be able to guess! Little Raccoon packs his baseball mitt, butterfly net, and water pail, and with his pal Red Squirrel in tow, goes out to catch a cold. "How can you talk to a complete stranger as if you have known them all your life? Is it really possible to read someone's thoughts and feelings within seconds of meeting them? In this..book ... explains the secrets of the oldest and most powerful psychological persuasion system in the world"--Back cover. This book is necessary because cold reading is the process by which most professional acting jobs are filled, and it is in every actor's best interest to know as much as they can about it. To succeed in the business of acting, most actors will need to master a cold reading technique so that it becomes reliable and natural. Some actors will develop an effective technique of their own. Many will not. For the actor who is not comfortable with the cold reading process, there are only two options: get lucky, or get help. What we do offer in this book is a really exciting, thorough and in depth examination of the cold reading process, together with specific techniques to directly apply in the day to day operation of your professional career. When you are actually 'on the spot', when you are in a reading situation, with a client opposite you, you really want hard and fast guidelines and rules to help you frame your reading. ***OVER ONE MILLION COPIES SOLD* *NOW AN INTERNATIONAL BESTSELLER*** If you could go back, who would you want to meet? In a small back alley of Tokyo, there is a café that has been serving carefully brewed coffee for more than one hundred years. Local legend says that this shop offers something else besides coffee—the chance to travel back in

time. Over the course of one summer, four customers visit the café in the hopes of making that journey. But time travel isn't so simple, and there are rules that must be followed. Most important, the trip can last only as long as it takes for the coffee to get cold. Heartwarming, wistful, mysterious and delightfully quirky, Toshikazu Kawaguchi's internationally bestselling novel explores the age-old question: What would you change if you could travel back in time? James Joyce has emerged as one of the most significant writers of the twentieth century, and his writings continue to invite enormous amounts of scholarly attention. This volume offers a careful reading of Joyce within the context of recent developments in postcolonial theory. Booker shows that Joyce's work provides critiques of capitalism and colonialism that have much in common with the works of more recent African and Caribbean writers. However, Joyce remains a fundamentally European writer whose work differs substantially from that of most postcolonial writers from Africa and the Caribbean. In pursuing these readings, Booker also pays careful attention to the cultural politics of Joyce criticism, arguing that ideological considerations arising primarily from the Cold War have, until now, strongly distorted readings of Joyce from all political perspectives.

Create the impression that you can read minds. Imagine meeting someone for the very first time and being able to reveal not only some of their innermost thoughts, but details of personal events yet to come. It appears to be nothing less than a genuine demonstration of extrasensory perception, ESP. This is the power of cold reading - a process used by professional psychics, mind readers, fortunetellers, intuitive counselors and guides, and mentalists. In our exclusive, best-selling book, *Tradecraft*, you'll learn how to harness this power to entertain your clients. Today's audiences love ESP entertainment, which is why so many of today's top professionals have already acquired this important skill. Now you can, too. All you have to do is follow the information and simple techniques outlined in this guide.

Is Lucan's brilliant and grotesque epic *Civil War* an example of ideological poetry at its most flagrant, or is it a work that despairingly proclaims the meaninglessness of ideology? Shadi Bartsch offers a startlingly new answer to this split debate on the Roman poet's magnum opus. Reflecting on the disintegration of the Roman republic in the wake of the civil war that began in 49 B.C., Lucan (writing during the grim tyranny of Nero's Rome) recounts that fateful conflict with a strangely ambiguous portrayal of his republican hero, Pompey. Although the story is one of a tragic defeat, the language of his epic is more often violent and nihilistic than heroic and tragic. And Lucan is oddly fascinated by the graphic destruction of lives, the violation of human bodies--an interest paralleled in his deviant syntax and fragmented poetry. In an analysis that draws on contemporary political thought ranging from Hannah Arendt and Richard Rorty to the poetry of Vietnam veterans, as well as on literary theory and ancient sources, Bartsch finds in the paradoxes of Lucan's poetry both a political irony that responds to the universally perceived need for, yet suspicion of, ideology, and a recourse to the redemptive power of storytelling. This shrewd and lively book contributes substantially to our understanding of Roman civilization and of poetry as a means of political expression.

Table of Contents: Preface Introduction The Subject under Siege Paradox, Doubling, and Despair Pompey as Pivot The Will to Believe History without Banisters Notes Bibliography Index

Reviews of this book: The problem of Lucan's stance is notorious, and it is the focus of Bartsch's book...She makes her own gripping contribution to the dossier of Lucanian despair in her first two chapters; but she believes that ultimately such interpretations sell the poet short, as an artist and a person. Her Lucan, both inside and outside his poem, is a Sartrean existentialist or a Rortyan moral ironist, who accepts the evanescence of traditional moral and political verities but who behaves as if his ideology matters anyhow and makes his choice regardless. Hence the "ideology in cold blood" of her title: Lucan knows, and spellbindingly demonstrates, that Liberty is a cipher, but he commits himself to it none the less. Bartsch has put her finger on a key issue, and her passionate book is a useful check to the establishment of a new orthodoxy on Lucan. --Denis Feeney, *Times Literary Supplement*

Reviews of this book: This could be that elusive creature, an Important Book. --Gideon Nisbet, *Bryn Mawr Classical Review*

Reviews of this book: This is a stimulating work, which I find has provoked many questions about Lucan's poem, about liberal irony, and about history...The

strengths of this book lie in its brevity, in its integration of detailed analyses with broader theoretical issues, and in its accessibility. It addresses a question which is of relevance to not only Lucanians, or Latinists, or classicists, but anyone who thinks about the politics of literature. --Ellen O'Gorman, *Classical World Reviews* of this book: Bartsch goes far beyond the boundaries of Lucan's Civil War itself. Readers interested in Latin literature in general, in the civil wars that ended the Republic, in the political context of the first centuries B.C.E. and C.E., in questions of human response to political repression long after Lucan, and those interested in Lucan himself as poet and conspirator, will want to read *Ideology in Cold Blood*. Bartsch has taken two prevailing camps of criticism--Lucan as "nihilist" and Lucan as "partisan"--and proposed an elegantly argued third alternative: Lucan as "political ironist." --Choice *Reviews* of this book: *Ideology in Cold Blood* provides a strikingly dissident approach to Lucan in that it aims to weld together a text-oriented focus, a political reading of the Civil War and a discussion of Lucan's political activities, i.e. his involvement in the Pisonian conspiracy. Bartsch's decision to include a biographical approach in her analysis should not be taken for bland naivety coming at a time when influential scholars on Lucan have come to reject this approach for the blatant fallacies that it entails. Bartsch offers something completely novel in this area, for it is entirely obvious that her sympathies do not lie with forms of historical reconstructionism in which the biographical data are simply made to correlate with the presumed political message of the poem...[Bartsch's book] will surely be ranked among the best works on the poet and I strongly recommend it to scholars interested in the literature of the Principate and in the role of Roman political epic. --Marc Kleijwegt, *Scholia* From the espionage files, an American soldier is nearly recruited in a downtown bar to be a spy and a First Sergeant is lured by sex to be an unknowing participant in spying. Behind-the-lines images are historic and intriguing. See photographs of a French officer and a Soviet officer relaxing in the East German woods in a temporary unofficial peace; 'James Bond' type cars with their light tricks and their ability to leave their Stasi shadows 'wheel spinning' in the snow will amaze readers. A Russian translator for the presidential hotline recounts a story about having to lock his doors in the Pentagon, separating himself and his sergeant from the Pentagon Generals when a message comes in from the Soviets. When he called the White House to relay the message to the President and stood by for a possible reply to the Soviet Chairman, he stopped working for the Generals and started working solely for the President. Believe it or not you don't have to be psychic to "be Psychic." The art of psychic cold reading will help psychics and non-psychics alike to improve their communication skills, connect more deeply with others, meet interesting people and make some good income giving people a real service they value. This is a great way to meet people... attractive people (hint, hint), capture their attention and have great fun. It's also a fun way to earn money. You will also be shown how conducting Psychic Readings is the perfect sideline business to generate even more clients and profits for NLP'ers, Hypnotherapy Practitioner's, Hypnosis Consultants and Complete Mind Therapists, indeed this is a must study course for all students of Psychology! Hanna was a hippopotamus in the Budapest zoo. Hanna and the other hippos thrived in the warm springs which flowed from the ground. One winter, however, it was so cold that the river froze. There was a war going on, and the people and animals were starving. But the people of Budapest made a plan to save their beloved hippos. This heartwarming story, based on a true incident that took place during World War II, is beautifully told by Trish Marx. Barb Knutson's charming illustrations magically evoke the faraway place and time. From the author of *The Last Thing You Said*, a YA romance about a girl on a boys hockey team who happens to fall for the team captain. Holland Delviss wants to be known for her talent as a hockey player, not a hockey player who happens to be a girl. So, to keep her spot on the boys' varsity team, she has rules: Practice harder than anyone else, even if that means 5 A.M. training sessions. Keep a low profile, even if that means ignoring trolls calling her a distraction, a gimmick, or worse. But when her team is selected for HockeyFest, a televised statewide event, Holland becomes the lead story (Goodbye, rule #2!). Not everyone is thrilled with Holland's new fame, but there's one person who fiercely supports her, and it's the last person she expects: her bossy team

co-captain, Wes. And Wes begins surprising her. He shares her passion for '80s glam metal, and his touch feels strangely electric. With the cameras set to roll, Holland is dangerously close to breaking yet another rule: No dating teammates, ever. A deeply romantic and empowering novel about shutting out the noise from the crowd, so you can listen to your heart. A Junior Library Guild Selection “A fun romp of a teen romance via an exciting hockey season, this book has all the right ingredients—a spunky, multifaceted main character, a love interest who turns out to be a decent individual, and plenty of internal and external conflict. . . . A teenage love story steamy enough to melt the ice in the rink.” —Kirkus Reviews “A fun read that simultaneously puts the reader into the hockey world as an insider and an outsider. . . . It’s a last-act gut punch that really puts a spotlight on what female athletes have to deal with. A must-read for anyone who has had to defy expectations.” ?Booklist Here is the stunning conclusion to the national bestselling Lunar Chronicles, inspired by Snow White. Master The Art Of Cold Reading is still the only cold reading book with a broad perspective on the subject. Her book offers information that will assist the most ambitious actors in taking charge of their own career, ? Master The Art Of Cold Reading is more than just another "How To Acting Book". It has helped raise awareness of the importance of solid auditioning techniques. Actors can control their destiny ? Master The Art Of Cold Reading is the only one of it's kind. Angel can help prepare serious artist for the Hollywood auditioning process There are many talented and trained actors that do not do well when cold reading. That's why I want to make all actors aware of the importance of strong cold reading skills and inform them that Cold Reading Workshops are an important alternative that will put them in command of their careers. Master the Art of Cold Reading is more than just another "How to Acting Book". It has helped raise awareness of the importance of solid auditioning techniques. Actors can control their destiny Angel Harper was the first person to write a book on Cold Reading. Since then 4 other books have been done. Master The Art Of Cold Reading is still the only cold reading book with a broad perspective on the subject. Attached are both my business and professional resumes to support my experience. “One of the most captivating novels of the year.” – Washington Post NATIONAL BESTSELLER A Best Book of the Year: Bloomberg | Boston Globe | Chicago Public Library | Chicago Tribune | Esquire | Kirkus | New York Public Library | New York Times Book Review (Historical Fiction) | NPR's Fresh Air | O Magazine | Washington Post | Publishers Weekly | Seattle Times | USA Today A Library Reads Pick | An Indie Next Pick From the #1 New York Times bestselling author of Beautiful Ruins comes another “literary miracle” (NPR)—a propulsive, richly entertaining novel about two brothers swept up in the turbulent class warfare of the early twentieth century. An intimate story of brotherhood, love, sacrifice, and betrayal set against the panoramic backdrop of an early twentieth-century America that eerily echoes our own time, The Cold Millions offers a kaleidoscopic portrait of a nation grappling with the chasm between rich and poor, between harsh realities and simple dreams. The Dolans live by their wits, jumping freight trains and lining up for day work at crooked job agencies. While sixteen-year-old Rye yearns for a steady job and a home, his older brother, Gig, dreams of a better world, fighting alongside other union men for fair pay and decent treatment. Enter Ursula the Great, a vaudeville singer who performs with a live cougar and introduces the brothers to a far more dangerous creature: a mining magnate determined to keep his wealth and his hold on Ursula. Dubious of Gig’s idealism, Rye finds himself drawn to a fearless nineteen-year-old activist and feminist named Elizabeth Gurley Flynn. But a storm is coming, threatening to overwhelm them all, and Rye will be forced to decide where he stands. Is it enough to win the occasional battle, even if you cannot win the war? Featuring an unforgettable cast of cops and tramps, suffragists and socialists, madams and murderers, The Cold Millions is a tour de force from a “writer who has planted himself firmly in the first rank of American authors” (Boston Globe). In 1969 the Vietnam War protest movement brings together two Minnesota teenagers. Traces the history of the Library of Congress under the leadership of each of the men who have been appointed as Librarian of Congress and discusses how the Library's collections have reflected American political and intellectual developments. The James Bond Cold Reading is a whole new take on the twelve lines of

the 'Classic Reading' made so popular from the 50's to the present day. Julian 'Bev' Moore shows you how this much discussed but seldom used powerful cold reading technique can be applied effectively and memorised in no time at all using characters such as James Bond that you already know and love. Forget about learning stock lines and never using them - using the proven techniques in The James Bond Cold Reading, you can learn to speak in you own words and amaze people by how much you know about them using one of the most misunderstood tools of mentalism - the character reading. By bringing a modern slant to an old technique, Julian 'Bev' Moore proves once again that that the old ones are the best - if only we knew how to apply them. If you're not a fan of 'stock lines' and think that learning them is a waste of time, this ebook could seriously change your mind!

REVIEWS "I got Julian's book and it is wonderful! It is a great system for doing a reading and extremely practical. I applaud Julian and highly recommend this!" - Richard Osterlind "First palmistry, now general Forer-Barnum 101... this guy really amazes me." - Craig Browning "Julian has taken the Classic Reading - which isn't out of date, as some would suggest - and applied a James Bond theme to its LEARNING (not to the reading itself), to make the reading's customization so much easier. It's ingenious, simple, and thought-inspiring, all at the same time! Buy this now, and start using it right away!" - R. Lee Davis "I have tried many times to learn the stock lines of cold reading. I've tried memory techniques, linking, the peg system, and even with all that everything seemed a confusing, repetitive mess. Because of Julian's system, in two days, I have learned to give a cold reading forward, backward, inside out and in my own words. Just as with Julian's palmistry book saved me about five years of study, this book is just as good and also very interesting. If you're interested in cold reading at all this will be the best money you'll ever spend. As a side note his system could be applied to anything else you might want to memorize and make your own. I have never heard of his techniques before and I have studied a lot of memory techniques. It's so easy I will add this to my 'readings' repertoire." - Scott Martisse "So I'm finally watching the new Casino Royale and lines from the James Bond Reading keep popping unbidden into my head. What makes this interesting is I hadn't really intended on learning the reading via James Bond but via a character I know more about. I followed Julian's suggestions to practice readings aloud, even to inanimate objects. After a bit of this, I tried the real deal. This isn't something you can do mechanically, at least if you want to get maximum effect and responses. It is a matter of a give and take that is "entrancing" in its impact. I can't wait to see what more experience will bring. Thank you Julian, you really have made a significant contribution. Your ability to simplify and teach is exceptional. I generally rely on my knowledge as a psychologist to add a bit of reading but it wasn't anywhere as powerful as applying this system. Folks, don't just read JBR. Get out there and use it." - Dr Bill Cushman

OTHER KINDLE BOOKS IN THE SPEED LEARNING SERIES BY JULIAN MOORE Speed Learning: Graphology - The Art Of Handwriting Analysis Speed Learning: Cartomancy - A Playing Card Reading Primer Speed Learning: Palmistry - Palm Readings In Your Own Words Speed Learning: Numerology - Numbers Past And Present With The Lo-Shu Square Speed Learning: Star Signs Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are Breakfast at Tiffany's and Other Voices, Other Rooms (in one volume), Portraits and Observations, and The Complete Stories Truman Capote's masterpiece, In Cold Blood, created a sensation when it was first published, serially, in The New Yorker in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes

to feel almost like a participant in the events. *Film Criticism, the Cold War, and the Blacklist* examines the long-term reception of several key American films released during the postwar period, focusing on the two main critical lenses used in the interpretation of these films: propaganda and allegory. Produced in response to the hearings held by the House Committee on Un-American Activities (HUAC) that resulted in the Hollywood blacklist, these films' ideological message and rhetorical effectiveness was often muddled by the inherent difficulties in dramatizing villains defined by their thoughts and belief systems rather than their actions. Whereas anti-Communist propaganda films offered explicit political exhortation, allegory was the preferred vehicle for veiled or hidden political comment in many police procedurals, historical films, Westerns, and science fiction films. Jeff Smith examines the way that particular heuristics, such as the mental availability of exemplars and the effects of framing, have encouraged critics to match filmic elements to contemporaneous historical events, persons, and policies. In charting the development of these particular readings, *Film Criticism, the Cold War, and the Blacklist* features case studies of many canonical Cold War titles, including *The Red Menace*, *On the Waterfront*, *The Robe*, *High Noon*, and *Invasion of the Body Snatchers*. A NEW YORK TIMES BESTSELLER! AS HEARD ON NPR MORNING EDITION AND ON BEING WITH KRISTA TIPPETT "Katherine May opens up exactly what I and so many need to hear but haven't known how to name." —Krista Tippett, *On Being* "Every bit as beautiful and healing as the season itself. . . . This is truly a beautiful book." —Elizabeth Gilbert "Proves that there is grace in letting go, stepping back and giving yourself time to repair in the dark...May is a clear-eyed observer and her language is steady, honest and accurate—capturing the sense, the beauty and the latent power of our resting landscapes." —Wall Street Journal An intimate, revelatory book exploring the ways we can care for and repair ourselves when life knocks us down. Sometimes you slip through the cracks: unforeseen circumstances like an abrupt illness, the death of a loved one, a break up, or a job loss can derail a life. These periods of dislocation can be lonely and unexpected. For May, her husband fell ill, her son stopped attending school, and her own medical issues led her to leave a demanding job. *Wintering* explores how she not only endured this painful time, but embraced the singular opportunities it offered. A moving personal narrative shot through with lessons from literature, mythology, and the natural world, May's story offers instruction on the transformative power of rest and retreat. Illumination emerges from many sources: solstice celebrations and dormice hibernation, C.S. Lewis and Sylvia Plath, swimming in icy waters and sailing arctic seas. Ultimately *Wintering* invites us to change how we relate to our own fallow times. May models an active acceptance of sadness and finds nourishment in deep retreat, joy in the hushed beauty of winter, and encouragement in understanding life as cyclical, not linear. A secular mystic, May forms a guiding philosophy for transforming the hardships that arise before the ushering in of a new season. Let's take a look at the major events that transpired during the cold war. More specifically, read about the conflict with Vietnam, the Cuban Missile Crisis and the Sputnik Launch. But what will your child get from reading these harrowing facts? The purpose of military history is to showcase how bad decisions led to terrible repercussions. Encourage your child to read. Start today! What do you do when you're missing a shoe? When you're caught in the rain? Or when your ice cream melts? *Solutions for Cold Feet* is a sweet and gently humorous look at practical and creative answers for all the little daily problems in one young girl's life, including her exuberant and pesky dog. Will her dog, who starts out as a problem, end up as solution? A gentle, repetitive story about forest creatures on a cold winter's day and night. With colorful, child-friendly illustrations this is a sweet pick for cozy storytimes by the fire. The masterly debut novel from "an exquisitely astute writer" (*The Boston Globe*), about growing up in—and out of—the suffocating constraints of small-town America. "Compact and beautiful . . . This novel bordering on a novella punches above its weight."—*The New York Times* "Very Cold People reminded me of *My Brilliant Friend*."—*The New Yorker* ONE OF THE BEST BOOKS OF THE YEAR: *The New Yorker*, NPR, *Los Angeles Times*, *The Guardian*, *Good Housekeeping* "My parents didn't belong in Waitsfield, but they moved there anyway." For Ruthie, the frozen town of Waitsfield, Massachusetts, is all

she has ever known. Once home to the country's oldest and most illustrious families—the Cabots, the Lowells: the “first, best people”—by the tail end of the twentieth century, it is an unforgiving place awash with secrets. Forged in this frigid landscape Ruthie has been dogged by feelings of inadequacy her whole life. Hers is no picturesque New England childhood but one of swap meets and factory seconds and powdered milk. Shame blankets her like the thick snow that regularly buries nearly everything in Waitsfield. As she grows older, Ruthie slowly learns how the town's prim facade conceals a deeper, darker history, and how silence often masks a legacy of harm—from the violence that runs down the family line to the horrors endured by her high school friends, each suffering a fate worse than the last. For Ruthie, Waitsfield is a place to be survived, and a girl like her would be lucky to get out alive. In her eagerly anticipated debut novel, Sarah Manguso has written, with characteristic precision, a masterwork on growing up in—and out of—the suffocating constraints of a very old, and very cold, small town. At once an ungilded portrait of girlhood at the crossroads of history and social class as well as a vital confrontation with an all-American whiteness where the ice of emotional restraint meets the embers of smoldering rage, *Very Cold People* is a haunted jewel of a novel from one of our most virtuosic literary writers. >A Step A to Z System To Project Your Psychic Power Here in this book, you will learn exactly what to do to project your psychic power to read people. It will become a new skill that you will acquire that you can use in your daily life. You can use cold reading to impress people or and to make friends, but there are so much more circumstance that you can use this book--- such as when you have a new manager, you can use cold reading to have a clue right away what the manager is like. Is it OK if you fool around and break the rules, or do you have to stick to the rules? -If you are a salesperson, you will have a clue of what type of merchandise is more appealing to your customer. -If you meet your ideal lover, you will know right away if he/she is extrovert or introvert, what type of activity, and conversation topics are appealing to this person.>Here Is A Preview Of What You Will Learn: You can use such an ability to go out and impress people in your social interactions. You will learn what type of conversation topic that person will be most likely into. Ability to extract some information without directly asking the person. If you go for a psychic reading, you will understand exactly what they are doing. It will sharpen your sense of observation in people. Your observation will not increase, but it would be focused on the specific clues you are looking for, making it more efficient. If you currently work as a psychic, you will be able to sharpen your skills with the information in this book. Get a copy, learn this new skill and start reading people! "An engrossing and impossibly wide-ranging project . . . In *The Free World*, every seat is a good one." —Carlos Lozada, *The Washington Post* "The *Free World* sparkles. Fully original, beautifully written . . . One hopes Menand has a sequel in mind. The bar is set very high." —David Oshinsky, *The New York Times Book Review* | Editors' Choice One of *The New York Times's* 100 best books of 2021 | One of *The Washington Post's* 50 best nonfiction books of 2021 | A *Mother Jones* best book of 2021 In his follow-up to the Pulitzer Prize-winning *The Metaphysical Club*, Louis Menand offers a new intellectual and cultural history of the postwar years. The Cold War was not just a contest of power. It was also about ideas, in the broadest sense—economic and political, artistic and personal. In *The Free World*, the acclaimed Pulitzer Prize-winning scholar and critic Louis Menand tells the story of American culture in the pivotal years from the end of World War II to Vietnam and shows how changing economic, technological, and social forces put their mark on creations of the mind. How did elitism and an anti-totalitarian skepticism of passion and ideology give way to a new sensibility defined by freewheeling experimentation and loving the Beatles? How was the ideal of “freedom” applied to causes that ranged from anti-communism and civil rights to radical acts of self-creation via art and even crime? With the wit and insight familiar to readers of *The Metaphysical Club* and his *New Yorker* essays, Menand takes us inside Hannah Arendt's Manhattan, the Paris of Jean-Paul Sartre and Simone de Beauvoir, Merce Cunningham and John Cage's residencies at North Carolina's Black Mountain College, and the Memphis studio where Sam Phillips and Elvis Presley created a new music for the American teenager. He examines the

post war vogue for French existentialism, structuralism and post-structuralism, the rise of abstract expressionism and pop art, Allen Ginsberg's friendship with Lionel Trilling, James Baldwin's transformation into a Civil Right spokesman, Susan Sontag's challenges to the New York Intellectuals, the defeat of obscenity laws, and the rise of the New Hollywood. Stressing the rich flow of ideas across the Atlantic, he also shows how Europeans played a vital role in promoting and influencing American art and entertainment. By the end of the Vietnam era, the American government had lost the moral prestige it enjoyed at the end of the Second World War, but America's once-despised culture had become respected and adored. With unprecedented verve and range, this book explains how that happened. This collection of essays has been written by magicians who really care about magic. Having discovered magic at a young age, they have allowed it to mature alongside their intellectual and practical formation. They contemplate different dimensions of magic and how they relate to it. Their stories and reflections reveal remarkable similarities in the themes that they address: Magic as power. Magic as escape. Magic as protection. Magic as play. Magic as medium. Magic as unknowable. Magic as symbol. Magic as language. Magic as incomplete. The book will touch anyone who has imagined a magical world and who has a sense of wonder, either as a child or as an adult. Broad in its approach, specific in its intent, 'The Magiculum' offers much to contemplate. Tired of always being cold, Pablo, a penguin, decides to move from the South Pole to a warmer climate. Winner of the 2018 American Academy of Diplomacy Douglas Dillon Award Shortlisted for the 2018 Duff Cooper Prize in Literary Nonfiction "[A] brilliant book...by far the best study yet" (Paul Kennedy, The Wall Street Journal) of the gripping history behind the Marshall Plan and its long-lasting influence on our world. In the wake of World War II, with Britain's empire collapsing and Stalin's on the rise, US officials under new Secretary of State George C. Marshall set out to reconstruct western Europe as a bulwark against communist authoritarianism. Their massive, costly, and ambitious undertaking would confront Europeans and Americans alike with a vision at odds with their history and self-conceptions. In the process, they would drive the creation of NATO, the European Union, and a Western identity that continue to shape world events. Benn Steil's "thoroughly researched and well-written account" (USA TODAY) tells the story behind the birth of the Cold War, told with verve, insight, and resonance for today. Focusing on the critical years 1947 to 1949, Benn Steil's gripping narrative takes us through the seminal episodes marking the collapse of postwar US-Soviet relations—the Prague coup, the Berlin blockade, and the division of Germany. In each case, Stalin's determination to crush the Marshall Plan and undermine American power in Europe is vividly portrayed. Bringing to bear fascinating new material from American, Russian, German, and other European archives, Steil's account will forever change how we see the Marshall Plan. "Trenchant and timely...an ambitious, deeply researched narrative that...provides a fresh perspective on the coming Cold War" (The New York Times Book Review), The Marshall Plan is a polished and masterly work of historical narrative. An instant classic of Cold War literature, it "is a gripping, complex, and critically important story that is told with clarity and precision" (The Christian Science Monitor). 'Cold reading' is a term normally associated with the psychic industry. It basically means 'how to talk to people so you sound psychic'. This book explains how to apply cold reading psychology to business and professional communications. CRFB delivers several practical business benefits. Among other things, it's the fastest, easiest way to build rapport, establish credibility, foster trust and create persuasive messages. Although anyone can use CRFB, it is particularly useful if you work for yourself and are trying to build or grow your business. The definitive history of the Cold War and its impact around the world We tend to think of the Cold War as a bounded conflict: a clash of two superpowers, the United States and the Soviet Union, born out of the ashes of World War II and coming to a dramatic end with the collapse of the Soviet Union. But in this major new work, Bancroft Prize-winning scholar Odd Arne Westad argues that the Cold War must be understood as a global ideological confrontation, with early roots in the Industrial Revolution and ongoing repercussions around the world. In The Cold War, Westad offers a new perspective on a century when great power rivalry and ideological

battle transformed every corner of our globe. From Soweto to Hollywood, Hanoi, and Hamburg, young men and women felt they were fighting for the future of the world. The Cold War may have begun on the perimeters of Europe, but it had its deepest reverberations in Asia, Africa, and the Middle East, where nearly every community had to choose sides. And these choices continue to define economies and regimes across the world. Today, many regions are plagued with environmental threats, social divides, and ethnic conflicts that stem from this era. Its ideologies influence China, Russia, and the United States; Iraq and Afghanistan have been destroyed by the faith in purely military solutions that emerged from the Cold War. Stunning in its breadth and revelatory in its perspective, this book expands our understanding of the Cold War both geographically and chronologically, and offers an engaging new history of how today's world was created. From the bestselling author of *Lawrence in Arabia*—the gripping story of four CIA agents during the early days of the Cold War—and how the United States, at the very pinnacle of its power, managed to permanently damage its moral standing in the world. “Enthralling ... captivating reading.” —The New York Times Book Review

At the end of World War II, the United States was considered the victor over tyranny and a champion of freedom. But it was clear—to some—that the Soviet Union was already seeking to expand and foment revolution around the world, and the American government’s strategy in response relied on the secret efforts of a newly formed CIA. Chronicling the fascinating lives of four agents, Scott Anderson follows the exploits of four spies: Michael Burke, who organized parachute commandos from an Italian villa; Frank Wisner, an ingenious spymaster who directed actions around the world; Peter Sichel, a German Jew who outwitted the ruthless KGB in Berlin; and Edward Lansdale, a mastermind of psychological warfare in the Far East. But despite their lofty ambitions, time and again their efforts went awry, thwarted by a combination of ham-fisted politicking and ideological rigidity at the highest levels of the government.

In the third *Bridge to Death* Mystery by R.J. Lee, Bridge expert and small town investigative reporter Wendy Winchester must put her amateur sleuthing skills to the test while investigating the death of a flamboyant psychic... Bridge expert and investigative reporter Wendy Winchester knows a thing or two about navigating life along the Mississippi River, but murder isn't something she foresees... Who could have predicted it? The daughter of Police Chief Bax Winchester married to a cop--Detective Ross Rierson. It's a beautiful wedding, and the newlyweds are in bliss--even if they do have to postpone their Hawaiian honeymoon for now. In the meantime, Wendy is teaching a group of newbies the game of bridge so they can join the Rosalie Country Club Bridge Bunch. One of the newcomers, flamboyant psychic Aurelia Spangler, invites the group to meet at her new home. The historic Overview mansion sits atop the High Bluff overlooking the Mississippi River, and the local lore is that it's possibly haunted, definitely cursed by the original builder, who fell down the stairs to his death. Unfortunately, the house is about to claim another life. Following a night of bridge practice and cold readings by their clairvoyant host, Aurelia is found dead in her home by Wendy, a suicide note and cocaine residue by her corpse. But Wendy, an investigative reporter for the Rosalie Citizen, doesn't buy it. The scene seems phonier than Aurelia's act, and now Wendy needs to call the bluff of a cold-blooded killer playing a psychic bid... More and more people every day are visiting psychics for advice, guidance and a peek into the future. The industry is a moneymaker, with TV talk shows, Internet astrologers and corner store psychics available for the seeker's pleasure. Mediums, sages and astrologers have enjoyed a long and well-documented history, and can even be found in The Bible, while modern psychics have turned their readings into fame, fortune and celebrity. But what can a psychic really do? This book will examine the ways that psychics run their show. Readers will come to understand the basics of the "cold read," which is the psychic's main tool for convincing customers to return “A lovely, fascinating book, which brings science to life.” —Alan Lightman

Combining science, history, and adventure, Tom Shachtman “holds the reader’s attention with the skill of a novelist” as he chronicles the story of humans’ four-centuries-long quest to master the secrets of cold (Scientific American). “A disarming portrait of an exquisite, ferocious, world-ending extreme,” *Absolute Zero and the Conquest of Cold* demonstrates how

temperature science produced astonishing scientific insights and applications that have revolutionized civilization (Kirkus Reviews). It also illustrates how scientific advancement, fueled by fortuitous discoveries and the efforts of determined individuals, has allowed people to adapt to—and change—the environments in which they live and work, shaping man’s very understanding of, and relationship, with the world. This “truly wonderful book” was adapted into an acclaimed documentary underwritten by the National Science Foundation and the Alfred P. Sloan Foundation, directed by British Emmy Award winner David Dugan, and aired on the BBC and PBS’s Nova in 2008 (Library Journal). “An absorbing account to chill out with.”
