A survey of English poetry, fiction, and drama ranges from the 8th century Beowulf to the present This text offers a thorough and accessible introduction to the interpretation and criticism of a broad range of Old and Middle English canonical texts from the 9th to the 15th centuries. It outlines current debates and theories and also explores the major themes and literary issues

of texts such as 'Beowulf' and 'The Anglo-Saxon Chronicle'. First published in 2012. Routledge is an imprint of Taylor & Francis, an informa company. Using an innovative theory of literary form applied to a series of detailed readings of the more important early Middle English works, Christopher Cannon shows how the many and varied texts of the period laid the foundations for the project of English literature. Features: * Wide chronological coverage of English literature, especially texts found in the Norton, Oxford, Blackwell and other standard anthologies * Short, punchy essays that engage with the texts, the critics, and literary and social issues * Background and survey articles * Glossaries of Bible themes, images and narratives * Annotated bibliography and questions for class discussion or personal reflection * Scholarly yet accessible, jargon-free approach -- ideal for school and university students, book groups and general readers Created for readers who may be unfamiliar with the Bible, church history or theological development, it offers an understanding of Christianity's key concepts, themes, images and characters as they relate to English literature up to the present day. "REA: the test prep AP teachers recommend." John Kerrigan's unique study of 17th-century anglophone literature explores remarkable work produced in Wales, Scotland, and Ireland and shows how preoccupied Shakespeare, Milton, and Marvell were with the interactions between the peoples of the British-Irish archipelago. This major book resets the terms of the debate for scholars of the period. This new guide covers seven hundred years of English literature. Stephen Coote describes the major figures and works of the period - Beowulf, King Alfred, Chaucer, Langland, Henryson, the Gawain-poet and Malory as well as lesser-known poets. Considerable attention is given to Chaucer and the extensive treatment of 'Troilus and Criseyde' demonstrates the range of concerns that can be brought to a medieval text. Chapters are devoted to alliterative poetry, popular romance, ballad and lyric, medieval drama and Middle English prose, set against a background of the European literary tradition and of medieval circumstances and ways of thought. The discussion of the development of the language from Old English to Middle English show how, through the genius of Chaucer, it took 'its plae beside the great literary vernaculars of Europe'. -- Book cover. By examining these competing depictions of combat that coexist in sixteenth-century texts ranging from Arthurian

romance to early modern medical texts, this study reveals both the importance of combat in understanding the humanist subject and the contours of the previously neglected pre-modern subject. *Studying English Literature* is a unique guide for undergraduates beginning to study the discipline of literature and those who are thinking of doing so. Unlike books that provide a survey of literary history or non-subject specific manuals that offer rigid guidelines on how to write essays, *Studying English Literature* invites students to engage with the subject's history and theory whilst at the same time offering information about reading, researching and writing about literature within the context of a university. The book is practical yet not patronizing: for example, whilst the discussion of plagiarism provides clear guidelines on how not to commit this offence, it also considers the difficulties students experience finding their own 'voice' when writing and provokes reflection on the value of originality and the concepts of adaptation, appropriation and intertextuality in literature. Above all, the book prizes the idea of argument rather than insisting upon formulaic essay plans, and gives many ways of finding something to say as you read and when you write, in chapters on Reading, Argument, Essays, Sentences and References. Presents nineteen chapters, each discussing a different genre, including riddles, balladry, romance, epic poetry, and beast fables. This Companion has been thoroughly revised to take account of recent scholarship and to provide a clear and accessible introduction for those encountering Old English literature for the first time. Including seventeen essays by distinguished scholars, this new edition provides a discussion of the literature of the period 600 to 1066 in the context of how Anglo-Saxon society functioned. New chapters cover topics including preaching and teaching, *Beowulf* and literacy, and a further five chapters have been revised and updated, including those on the Old English language, perceptions of eternity and Anglo-Saxon learning. An additional concluding chapter on Old English after 1066 offers an overview of the study and cultural influences of Old English literature to the present day. Finally, the further reading list has been overhauled to incorporate the most up-to-date scholarship in the field and the latest electronic resources for students. This is the second edition of *English Literature in Context*, a popular textbook which provides an essential resource and reference tool for all English literature students. Designed

to accompany students throughout their degree course, it offers a detailed narrative survey of the diverse historical and cultural contexts that have shaped the development of English literature, from the Anglo-Saxon period to the present day. Carefully structured for undergraduate use, the eight chronological chapters are written by a team of expert contributors who are also highly experienced teachers. Each chapter includes a detailed chronology, contextual readings of selected literary texts, annotated suggestions for further reading, a rich range of illustrations and textboxes, and thorough historical and literary overviews. This second edition has been comprehensively revised, with a new chapter on postcolonial literature, a substantially expanded chapter on contemporary literature, and the addition of over two hundred new critical references. Online resources include textboxes, chapter samples, study questions, and chronologies. by more than 8 million students, *The Norton Anthology of English Literature* sets the standard and remains an unmatched value. This volume offers a description of early modern habits of writing and reading, of publication and stage performance, and of political and religious writing. An introduction to early modern English literature for students and general readers. Considers the ways in which early modern writers construct the past, recover and adapt classical genres, write about people and places, and tackle religious and secular controversies. Illustrated with a profusion of excerpts from early modern texts. Writers represented include More, Erasmus, Spenser, Marlowe, Shakespeare, Donne, and Milton, as well as less well known authors. *A Guide To English Literature Embraces A Wide Spectrum Of Literary Works In The Field Of The English Novel, Drama And Poetry. It Is Meant To Enhance The Enjoyment And Understanding Of English Literature Through The Critical Discussion Of Particular Works Of A Large Number Of Writers Including Shakespeare, Marlowe, Metaphysicals, Milton, Dryden, Pope, Wordsworth, Coleridge, Keats, Emily Bronte, Hardy, Eliot, Virginia Woolf, E.M. Forster, Hemingway And Mulk Raj Anand.* Sweeping across two millennia and every literary genre, acclaimed scholar and biographer Jonathan Bate provides a dazzling introduction to English Literature. The focus is wide, shifting from the birth of the novel and the brilliance of English comedy to the deep Englishness of landscape poetry and the ethnic diversity of Britain's Nobel literature laureates. It goes on to provide a more in-depth analysis, with close readings from an extraordinary scene in *King Lear* to a war poem by Carol Ann Duffy, and a series of striking examples of how literary texts change as they are transmitted from writer to reader. The narrative embraces not only the major literary movements such as Romanticism and Modernism, together with the most influential authors including Chaucer, Donne, Johnson, Wordsworth, Austen, Dickens and Woolf, but also little-known stories such as the identity of the first English woman poet to be honoured with a collected edition of her works. Written with the flair and passion for which Jonathan Bate has become renowned, this book is the perfect Very Short Introduction for all readers and students of the incomparable literary heritage of these islands. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way

to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable. This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. We have represented this book in the same form as it was first published. Hence any marks seen are left intentionally to preserve its true nature. *Fast Track to a 5: Preparing for the AP English Literature and Composition Examination* is coordinated with *Arp/Johnson, Perrine's Literature: Structure, Sound, and Sense*. The diagnostic test, practice questions, and full-length practice tests include all the types of questions found on the exam, including multiple-choice, poetry essay questions, prose essay questions, and open essay questions. Collects novels, stories, poems, essays, plays, ballads, and sermons from British authors. *Literature in English: How and Why* is an accessible guide for students. It deals with the fundamental concepts of literary form and genre; the history of English-language literature from the medieval period to the present; relations between the study of literature and other disciplines; literary theory; researching a topic; and writing a paper. This new edition contains a brand new chapter which takes literary theory to another level, using it to link literature to the issues that concern us most, whether in our own lives or in the UN's Sustainable Development Goals. The book has also been fully updated throughout, with significant additions to the introduction and further reading sections. Overall, *Literature in English*:

- Grounds the study of literature throughout by referencing a selection of well-known novels, plays and poems
- Examines the central questions that readers ask when confronting literary texts, and shows how these make literary theory meaningful and necessary
- Links British, American and postcolonial literature into a coherent whole
- Discusses film as literature and provides the basic conceptual tools needed to study film within a literature-course framework
- Places particular emphasis on interdisciplinarity by examining the connections between the study of literature and other disciplines
- Links literary theory to current global challenges, placing special emphasis on new and evolving approaches such as ecocriticism, new materialism and the spatial turn
- Provides extensive guidance on further reading. Written
