The Pertinence of Caricom in the 21st Century: Some Perspectives Sep 19 2019 The papers in this editor's choice from among the many articles, books and other commentaries that have provided clear and reasoned responses and solutions, to inform and guide our leaders in the creation of a Community for All. The publication posits that the time has come for the citizens of the Caribbean Community to be brought formally into the process that directly affects them and their capacity to live better lives. It advocates the need for them to be informed and educated so that they can better appreciate what benefits Community membership has brought them. Armed with such information they will be better equipped to take increasingly more positive action in their collective interest.

The Emerging Middle East-East Asia Nexus Mar 26 2020 As the economies of East Asia grow ever stronger, their need for energy resources increases, which in turn compels closer relations with the countries of the

Middle East. This book examines the developing relations between the countries of East Asia, especially China and Japan, with the countries of the Middle East. It looks at various key bilateral relationships, including with Iran and Syria, discusses the impact on the United States' hegemony in both regions, considers whether the new relations represent a contribution to, or a threat to, peace and stability, and assesses the implications of the changes for patterns of regional and global international relations systems.

Dynamics of Meteor Outbursts and Satellite Mitigation Strategies Dec 23 2019 The potential threat posed by Leonid meteoroids to orbiting spacecraft over the next several years calls for new dynamic mitigation strategies to assist the satellite community in reducing the danger to its vehicles. This book offers deliberate dynamic mitigation strategies to complement the traditional shielding strategies, providing mission operators additional ways to decrease the danger. Five different attitude control and orbit maneuvering options are examined in detail. The information is presented in algorithmic form to allow technically competent, but meteoroid inexperienced, operators to easily understand the phenomena, assess the danger, and implement procedures. Although general in scope, the book emphasizes the Leonid meteor events of the 1998-2002 timeframe.
