The Atlantic World, 1450-2000 Aug 03 2020 "This ambitious work provides an overview of the Atlantic world, since the 15th century, by exploring the major themes that define the study of this region. Contact with Europeans in Africa and the Americas, the slave trade, gender and race in the early Atlantic world, independence movements in Africa, Caribbean nationalism, and gender and identity in the 20th century are just a few subjects discussed. Moving beyond the micro-histories of the scholarly monograph to connect the fruits of those researches with broader events and processes, this book, in the editors' words, makes "a concerted effort to re-connect elites and non-elites, Old World and New, early modern and modern, and economics and culture." It will be a point of embarkation for a new generation of students of the Atlantic world." -- Publisher's description.

The Supreme Court and the Development of Law Dec 07 2020 This book illuminates the decision-making processes of the US Supreme court through an examination of several prisoners' rights cases. In 1964, the Supreme Court declined to hear prisoners' claims about religious freedom. In 2014, the Supreme Court heard a case that led to the justices' unanimous endorsement of a Muslim prisoner's religious right to grow a beard despite objections from prison officials. In the fifty-year span between those two events, the Supreme Court developed the law concerning rights for imprisoned offenders. As

demonstrated in this book, the factors that shape Supreme Court decision making are well-illustrated by prisoners' rights cases. This area of law illuminates competing approaches to constitutional interpretation, behind-the-scenes interactions among the justices, and the manipulation of legal precedents. External actors also affect the Supreme Court and its decisions when the president appoints new justices and Congress targets the judiciary with legislative enactments. Because of the controversial nature of prisoners' rights issues, these cases serve to illuminate the full array of influences over Supreme Court decision making.

Supplementary Despatches, Correspondence, and Memoranda of Field Marshal Arthur Duke of Wellington ... Mar 22 2022

The Rising of Thovhedzo Richwoman Jul 26 2022 The book is based on the true story of Thovhedzo Richwoman and her journey to get to the top in the South African mining industry and the segregation she faces from white examiners and white bosses, until she decided the world has to stop burying its head in the sand and pretend that racism is a thing of the past when she started experiencing a nightmare she thought had gone with the coming of independence in 1994. Thovhedzo aspires to become a rock engineer, and to get certified, she needs to write certain examinations. As she goes through this, she discovers that the color of your skin plays a big part pertaining to whether or not you will pass the exams. In addition to that, she also discovers that although many blacks are working hard at university to get degrees and get good jobs in the mining industry, those of white skin colour have an easier access to those same positions, even those with no university or any other college qualification, but merely based on the color of their skin. The book highlights the stages Thovhedzo goes through to achieve what she sets out to achieve and takes the reader through different experiences she experiences in her life in her endeavour to get to the top. It shows us the frustrations she went through from continuously failing exams and not being awarded passes for exams initially passed. Her dreams were crushed by the oppressors through an organized network of diplomatic racism scheme. Over time, she finds herself imprisoned in hatred, resentment, low confidence, bitterness, and confusion. The lesson she learns, besides endurance and forgiveness, is that people still pretend there are no race issues in South Africa, and this is what made her decide to highlight what she faced in the mining industry. Thovhedzo Richwoman wrote the book to do the following: to raise an awareness of racism in the mining industry and how it destroys the career of young black professionals and hopefully get the attention from the right authorities to resolve the problem To create platforms for individuals suffering from racism to speak out so that the issue can be addressed to encourage transformation and make rock engineering accessible to all black and white people to encourage the readers to dream and follow their dreams regardless of failure and obstacles along the way help her accept her painful experience and that there is nothing she can do to change what happened. Make something good out of the traumatic experience and generate money from her past horrific experiences through the book sales

Oswaal CBSE Accountancy, English Core, Business Studies & Economics Class 11 Sample Question Papers + Question Bank (Set of 8 Books) (For 2023 Exam) Nov 05 2020 CBSE Sample Paper Class 11 Accountancy, English Core, Business Studies & Economics for Exams 2022-2023 is one of the best CBSE Reference Books for Class 11 exams 2022-23. Empowering Novice Academics for Student Success Dec 19 2021 The preparation for a career in education and training cuts into all three categories of knowledge: cognitive, affective, and psychomotor, and all four dimensions of competence. The implication is that effective teaching requires not only theoretical knowledge, but also practical abilities that include a range of instructional skills and techniques. The workbook therefore contains a number of activities intended to promote professional competence. The types of activities vary: they are used to stimulate thinking (promoting reflective practice), and provide guidance in the application of knowledge, as well as developing certain instructional skills. Note that the amount of activities included here is only scratching the surface; different teaching matters should receive priority in the continuous professional development (CPD)

of academic staff. Readers may perceive some of the activities as challenging, or find it difficult to relate to that, owing to being novices in higher education teaching and learning. In view of this, the reading includes comments on each activity (Activity solutions), as well as comments on the reflection activities, as a further attempt at supporting and enhancing the professional development of novice teachers. The workbook includes reading on aspects of resource design for learning enhancement. Since this particular topic involves many technical aspects, it is presented separately from the content in the textbook, and is regarded as an enrichment opportunity.
