Epilepsy Surgery: The Network Approach, An Issue of Neurosurgery Clinics of North America, E-Book Jan 23 2022 This issue of *Neurosurgery Clinics*, guest edited by Dr. R. Mark Richardson and Dr. Vasileios Kokkinos, will focus on *Epilepsy Surgery: The Network Approach*. This issue is one of four selected each year by our series consulting editors, Dr. Russell R. Lonser and Dr. Daniel K. Resnick. Topics discussed in this issue will include: History of the network approach in epilepsy surgery, Networks in temporal lobe epilepsy, Networks in frontal lobe epilepsy, Networks in parietal and occipital lobe epilepsy, Structures facilitating epileptogenic network formation, Extracranial interictal and ictal EEG in sEEG planning,

Ictal semiology as a tool for sEEG planning, The significance of MRI lesions in sEEG planning, Functional networks in epilepsy presurgical evaluation, Automation advances in sEEG planning, Interpretation of the intracranial sEEG signal, Electrical cortical stimulation, Epileptogenic index, Modeling the epileptogenic network, Machine learning in epilepsy surgery evaluations, Neuromodulation of epilepsy networks, and Decision-making in epilepsy surgery.

Manual de computação evolutiva e metaheurística Jan 03 2023 As técnicas computacionais que são hoje denominadas por Computação Evolutiva e por Metaheurísticas se desenvolveram, de maneira relativamente independente, durante os últimos 40 anos do século XX, no seio de duas comunidades científicas que mantiveram relativamente pouco contato ao longo desse período. Durante esse tempo, ambos os conjuntos de técnicas se consolidaram, sendo hoje reconhecidos como parte integrante do repertório fundamental de ferramentas da Computação e da Engenharia que possibilitam a síntese de muitos dos sistemas tecnológicos hoje existentes. Apenas no decorrer da última década do século XX se formou, nas respectivas comunidades científicas, uma consciência das conexões existentes entre esses dois corpos de conhecimento, que partilham muitos dos seus princípios e fundamentos. O presente livro foi escrito com o objetivo de constituir uma obra de referência em Língua Portuguesa, abrangendo os níveis de graduação e pós-graduação do nosso ensino universitário e politécnico, na sequência das edições já realizadas da Escola Luso-Brasileira de Computação Evolutiva.

Gerontologic Nursing - E-Book Aug 25 2019 Covering both disorders and wellness, Gerontologic Nursing provides the essential information you need to provide the best nursing care to older adults. A body-system organization makes information easy to find, and discussions include health promotion, psychologic and sociocultural issues, and the common medical-surgical problems associated with aging adults. Written by expert educator and clinician Sue Meiner, EdD, RN, CS, GNP, this book also emphasizes topics such as nutrition, chronic illness, emergency treatment, patient teaching, home care, and end-of-life care. Comprehensive assessment guidelines identify findings that are normal, deviate from normal, and abnormal. A separate Health Promotion chapter and specialty boxes provide information related to promoting healthy lifestyles and preventing disease. Detailed coverage of pain, infection, cancer, chronic illness, loss, death and dying, and substance abuse explains the complex aspects of aging and related care. Cultural Influences chapter and Cultural Awareness boxes focus on clients' specific customs and how they affect your nursing care. Client/Family Teaching boxes help you communicate effectively on self-care. Home Care Tips boxes promote practical, effective care for the homebound older client. Emergency Treatment boxes highlight critical care in emergency situations. Nutrition boxes discuss the special nutritional needs and concerns of an aging population. Key points help you remember what you've read, and critical thinking activities help expand learned concepts. Up-to-date content includes the latest on hip and knee replacement, Lyme disease, lactose intolerance, upper respiratory infections, current arthritis therapies and treatments, and expanded information on abuse of older adults. Unique! Nursing Care Plans link NANDA-I nursing diagnoses, NIC priority interventions for specific conditions, and NOC suggested outcomes for guidance in providing appropriate care. Unique! Evidence-Based Practice boxes help you apply the research leading to better outcomes of nursing care. Unique! Nursing Process boxes provide quick and easy access to care information.

BMTCN Certification Review Manual Aug 30 2022 The BMTCN Certification Review Manual is an essential resource for RNs preparing to take the blood and marrow transplant certified nurse (BMTCN) examination. As the only nationally accredited test of its kind, the BMTCN certification identifies nurses as being adept in the specialty of blood and marrow transplantation. This study manual is an essential learning resource for your certification preparation.

Manual acadêmico de neonatologia Jun 27 2022 Um Manual de fácil leitura e compreensão para todos aqueles que se interessam nas

patologias pediátricas diagnosticadas no período neonatal. Divididas entre as principais especialidades, clínicas e cirúrgicas, cada tópico inicia com uma breve revisão da fisiologia, embriologia e exame físico direcionado. O objetivo deste material é proporcionar um contato inicial com a apresentação clínica, evolução e história natural, além do manejo das doenças mais prevalentes nos recém-nascidos. Todos os capítulos foram escritos por acadêmicos de medicina, sob a orientação de excelentes pediatras especialistas nas mais de 10 áreas abrangidas no presente material. Esta obra foi organizada pela diretoria 2019/2020 da Liga Acadêmica de Neonatologia do Hospital do Trabalhador e Universidade Positivo, Curitiba, PR.

Digital Communications with Emphasis on Data Modems Aug 18 2021 This book uses a practical approach in the application of theoretical concepts to digital communications in the design of software defined radio modems. This book discusses the design, implementation and performance verification of waveforms and algorithms appropriate for digital data modulation and demodulation in modern communication systems. Using a building-block approach, the author provides an introductory to the advanced understanding of acquisition and data detection using source and executable simulation code to validate the communication system performance with respect to theory and design specifications. The author focuses on theoretical analysis, algorithm design, firmware and software designs and subsystem and system testing. This book treats system designs with a variety of channel characteristics from very low to optical frequencies. This book offers system analysis and subsystem implementation options for acquisition and data detection appropriate to the channel conditions and system specifications, and provides test methods for demonstrating system performance. This book also: Outlines fundamental system requirements and related analysis that must be established prior to a detailed subsystem design Includes many examples that highlight various analytical solutions and case studies that characterize various system performance measures Discusses various aspects of atmospheric propagation using the spherical 4/3 effective earth radius model Examines Ionospheric propagation and uses the Rayleigh fading channel to evaluate link performance using several robust waveform modulations Contains end-of-chapter problems, allowing the reader to further engage with the text *Digital Communications with Emphasis on Data Modems* is a great resource for communication-system and digital signal processing engineers and students looking for in-depth theory as well as practical implementations.

Georges Perec: *A Life in Words* Apr 01 2020 "It's hard to see how anyone is ever going to better this User's Manual to the life of

Georges Perec" - Gilbert Adair, Sunday Times Winner of the Prix Goncourt for Biography, 1994 George Perec (1936-82) was one of the most significant European writers of the twentieth century and undoubtedly the most versatile and innovative writer of his generation. David Bellos's comprehensive biography - which also provides the first full survey of Perec's irreverent, polymathic oeuvre - explores the life of an anguished, comical and endearingly modest man, who worked quietly as an archivist in a medical research library. The French son of Jewish immigrants from Poland, he remained haunted all of his life by his father's death in the war, fighting to defend France, and his mother's in Auschwitz-Birkenau. His acclaimed novel A Void (1969) - written without using the letter "e" - has been seen as an attempt to escape from the words "père", "mere", and even "George Perec". His career made an auspicious start with Things: A Story of the Sixties (1965), which won the Prix Renaudot. He then pursued an idiosyncratic and ambitious literary itinerary through the intellectual ferment of Paris in the 1960s and 1970s. He belonged to the Ouvrior de Littérature Potentielle (OuLiPo), a radically inventive group of writers whose members included Raymond Queneau and Italo Calvino. Perec achieved international celebrity with Life A User's Manual (1978), which won the Prix Medicis and was voted Novel of the Decade by the Salon du Livre. He died in his mid-forties after a short illness, leaving a truly puzzling detective novel, 53 Days, incomplete. "Professor Bellos's book enables us at once to relish the most wilfully bizarre aspects of Perec's oeuvre and to understand the whys and wherefores of his protean nature" - Jonathan Romney, Literary Review

Catheter Ablation of Cardiac Arrhythmias E-book Sep 30 2022 The 2nd edition of Catheter Ablation of Cardiac Arrhythmias, written by Shoei K. Stephen Huang, MD and Mark A. Wood, MD, provides you with the most comprehensive and detailed coverage of the latest ablation techniques, from direct-current to radiofrequency to cryoenergy. It offers the latest information on anatomy, diagnostic criteria, differential diagnosis, mapping, and the use of echocardiography to assist in accurate diagnosis and management of cardiac arrhythmias. Authored by two of the world's leading experts in catheter ablation, this text includes a unique section on troubleshooting difficult cases, and its use of tables, full-color illustrations, and high-quality figures is unmatched among publications in the field. Get the most comprehensive and detailed coverage of arrhythmias and ablation technologies, highlighted by a systematic approach to troubleshooting specific problems encountered in the laboratory - complete with solutions. Find the critical answers you need quickly and easily thanks to a consistent, highly user-friendly chapter format. Master each approach with exceptional visual guidance from tables, illustrations, high-quality figures. Review basic concepts and build clinical knowledge

using extensive tables that present specific 'hard-to-remember' numerical information used in diagnosis, and mapping to summarize key information in each chapter. Improve accuracy with assistance from advanced catheter mapping and navigation systems and use of intracardiac echocardiography to assist accurate diagnosis and ablation. Keep pace with an updated and expanded section on atrial fibrillation. Stay current on timely topics like contemporary cardiac mapping and imaging techniques, atrial tachycardia and flutter, atrial fibrillation, atrioventricular nodal reentrant tachycardia, tachycardias related to accessory atrioventricular connections, and ventricular tachycardia, transseptal catheterization, ablation for pediatric patients, and patient safety and complications.

Success in Practical/Vocational Nursing - E-Book Jan 29 2020 Part of the LPN Threads series, Success in Practical/Vocational Nursing: From Student to Leader, 7th Edition helps you develop the practical knowledge and problem-solving skills you need for a successful career as an LPN/LVN. This edition features up-to-date content that is logically organized with concepts that build on each other as you progress through the material. 1-2-3-approach walks you through the steps of what you need to do and how to do it. A separate chapter on critical thinking and plentiful critical thinking exercises encourage you to apply your knowledge to solve problems in both academic and personal situations. Coverage of Medicare helps you understand the costs of managed care, especially in long-term settings for older adults, and how it affects LPN/LVN practice and patients. Keep In Mind boxes prompt you to consider the underlying theme as you read the chapter. New Research and Evidence Based Practice chapter addresses topics commonly encountered in LPN/LVN practice. New technology

content helps you understand the role of simulation in nursing education and the proper etiquette for using electronic devices. Content reflects the concepts contained in the most current NCLEX-PN test plan. Professional Pointers throughout the text offer valuable advice on expectations in the professional arena during and after nursing school. Revised chapter on Health Care Systems reflects the implementation of dramatic changes. Updated nutrition and dietary information includes new MyPlate information. The latest protocols from the NAPNES, including student confidentiality, keeps you updated on your national association's practice standards. Revised, updated, and expanded culture content allows you to provide culturally sensitive care.

Leadership and Nursing Care Management - E-Book Dec 30 2019

Comprehensive and easy to read, this authoritative resource features the most up-to-date, research-based blend of practice and theory related to the issues that impact nursing management and leadership today. Key topics include the nursing professional's role in law and ethics, staffing and scheduling, delegation, cultural considerations, care management, human resources, outcomes management, safe work environments, preventing employee injury, and time and stress management. Research Notes in each chapter summarize relevant nursing leadership and management studies and show how research findings can be applied in practice. Leadership and Management Behavior boxes in each chapter highlight the performance and conduct expected of nurse leaders, managers, and executives. Leading and Managing Defined boxes in each chapter list key terminology related to leadership and management, and their definitions. Case Studies at the end of each chapter present real-world leadership and management situations and illustrate how key chapter concepts can be applied to actual practice. Critical Thinking Questions at the end of each chapter present clinical situations followed by critical thinking questions that allow you to reflect on chapter content, critically analyze the information, and apply it to the situation. A new Patient Acuity chapter uses evidence-based tools to discuss how patient acuity measurement can be done in ways that are specific to nursing. A reader-friendly format breaks key content into easy-to-scan bulleted lists. Chapters are divided according to the AONE competencies for nurse leaders, managers, and executives. Practical Tips boxes highlight useful strategies for applying leadership and management skills to practice.

Cardiac Arrhythmias: Advances in Research and Treatment: 2011 Edition Oct 27 2019 Cardiac Arrhythmias: Advances in Research and Treatment: 2011 Edition is a ScholarlyEditions™ eBook that delivers timely, authoritative, and comprehensive information about Cardiac

Arrhythmias. The editors have built *Cardiac Arrhythmias: Advances in Research and Treatment: 2011 Edition* on the vast information databases of ScholarlyNews.™ You can expect the information about Cardiac Arrhythmias in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of *Cardiac Arrhythmias: Advances in Research and Treatment: 2011 Edition* has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

Success in Practical/Vocational Nursing - E-Book Mar 01 2020 Take an exciting journey to success in your LPN/LVN career! Emphasizing leadership and clinical judgment skills, *Success in Practical / Vocational Nursing: From Student to Leader, 10th Edition* helps you navigate your way through nursing school, examinations, the job search, and success in professional practice. It describes the building blocks essential to a successful career, such as critical thinking, ethics, effective communication, and an understanding of your role in the nursing process. Also useful are review questions to help you get ready for the NCLEX-PN® examination. Written by educators Lisa Falgiatore Carroll and Janyce Collier, this edition adds new insight into the ways self-empowerment can help you achieve positive outcomes in class and on the job. Basic career information includes the value of the LPN, workforce trends, state regulations governing LPN practice, and insight into safe practice and NCLEX-PN® success. Learning features in each chapter include objectives and key terms with phonetic pronunciations, with definitions in the text and in the glossary. Storytelling narratives at the beginning of specific chapters use real-life scenarios to provide context for the topic. Get Ready for the NCLEX-PN® Examination section at the end of each chapter includes key points, critical thinking scenarios, additional learning resources, and review questions with answers at the back of the book. Test-taking and interview preparation tips prepare students to take the NCLEX-PN Examination and guide you through the job search, applications, and interviews – including electronic resumes. Critical Thinking boxes provide opportunities to practice problem solving. Coordinated Care boxes develop leadership and management skills with hints, tools, and activities. Keep in Mind boxes introduce the underlying theme of each chapter. Professional Pointers boxes give advice on nursing best practices in practice settings. Try This! boxes challenge students to imagine, visualize, and think outside the box. Full-color design makes this text visually appealing and easy to read.

References cite evidence-based information and can be found in the back of the book. NEW! Next-Generation NCLEX® (NGN) Examination-style questions are provided at the end of each chapter. NEW! Empowerment boxes introduce tools that can affect positive outcomes in class, clinicals, and professional practice. NEW! Updated content includes delegation, preparing students for leadership positions immediately upon graduation, and the latest on clinical judgment.

Functional Neurosurgery and Neuromodulation Jul 29 2022 Offers expert guidance on functional neurosurgery and neuromodulation, lists of requirements, and the instruments needed to perform these procedures. Answers practical questions such as "What do I need when performing a thermal procedure?", "What do I need to bear in mind when assembling a device?", and "What do I need to remember with regards to voltages, electrodes, percutaneous leads, RF generators, imaging, and micro instruments?" Consolidates today's available information and guidance in this timely area into one convenient resource. Functional Neurosurgery and Neuromodulation provides comprehensive coverage of this emerging, minimally invasive area of health care. Recent advances in these areas have proven effective for pain relief, memory loss, addiction, and much more. This practical resource by Drs. Kim J. Burchiel and Ahmed Raslan brings you up to date with what's new in the field and how it can benefit your patients.

Labor Relations Reference Manual Jul 05 2020 Vols. 9-17 include decisions of the War Labor Board.
