Practical manual on diesel engines covers general troubleshooting, repair, maintenance. One of the most trusted test preparation guides in the industry, AUTOMOTIVE TECHNICIAN CERTIFICATION TEST PREPARATION MANUAL A-SERIES, 5th Edition, will help to prepare users for the A1-A8 and L1 ASE certification exams. The guide is highly effective in covering need-to-know information to help users pass their exams. Each section starts with a complete overview of the ASE Tasks for that specific system. Next, each section includes ASE Style practice exams to test your knowledge on these critical ASE Tasks. Finally, each

section ends an explanation of answers and ASE Task remediation. The end result: is a powerful test preparation tool, filled with updated task list theory, practice tests, and abundant, demonstrative graphics, which will arm users with the knowledge they need to master the ASE certification exams. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Dieses Buch umfasst sowohl ein anwenderfreundliches Handbuch als auch einen Leitfaden zur Wartung und Reparatur der im Titel genannten, gängigen Diesel-Schiffsmotoren. Es handelt sich

hierbei um eine englischsprachige Ausgabe. This book contains the operator's handbooks as well as the complete repair operation manuals for these still very popular marine and stationary engines. Originally printed in 1946, The Fleet Type Submarine series of technical manuals remains unparalleled. Contained in its pages are descriptions of every operating component aboard a fleet boat. Main Propulsion Diesels examines the submarine's power plant in detail, from starting and control systems to fuel and exhaust, and cooling and lubrication systems. Originally classified 'Restricted', this book was

recently declassified and is here reprinted in book form. Some illustrations have been slightly reformatted, and color plates are reproduced in black and white. Care has been taken to preserve the integrity of the text.
