A guide to neurofeedback for better physical and mental health as well as greater emotional balance, cognitive agility, and creativity • Provides easy-to-understand explanations of different neurofeedback methods--from the LENS technique to Z-score training • Explains the benefits of this therapy for anxiety, depression, autism, ADHD, post-traumatic stress disorder, obsessive-compulsive disorder, brain injuries, stroke, Alzheimer's, and many other ailments • Explores how to combine neurofeedback with breathwork, mindfulness, meditation, and attention-control exercises such as Open Focus What is neurofeedback? How does it work? And how can it help me or my family? In this guide to neurofeedback, psychologist and neurofeedback clinician Stephen Larsen examines the countless benefits of neurofeedback for diagnosing and treating many of the most debilitating and now pervasive psychological and neurological ailments, including autism, ADHD, anxiety, depression, stroke, brain injury, obsessive-compulsive disorder, and post-traumatic stress disorder. Surveying the work of neurofeedback pioneers, Larsen explains the techniques and advantages of different neurofeedback methods--from the LENS technique and HEG to Z-score training and Slow Cortical Potentials. He reveals evidence of neuroplasticity--the brain's ability to grow new neurons—and shows how neurofeedback can nourish the aging brain and help treat degenerative conditions such as Alzheimer's and strokes. Examining the different types of brain waves, he shows how to recognize our own dominant brainwave range and thus learn to exercise control over our mental states. He explains how to combine neurofeedback with breathwork, mindfulness, meditation, and attention-control exercises such as Open Focus. Sharing successful and almost miraculous case studies of neurofeedback patients from a broad range of backgrounds, including veterans and neglected children, this book shows how we can nurture our intimate relationship with the brain, improving emotional, cognitive, and creative flexibility as well as mental health. Housing matters for everyone, as it provides shelter, security, privacy, and stability. For survivors of intimate partner violence (IPV), housing takes on an additional meaning; it is the key to establishing a new life, free from abuse. IPV survivors often face such inadequate housing options, however, that they must make excruciating choices between cycling through temporary shelters, becoming homeless, or returning to their abusers. Home Safe Home offers a multifaceted analysis that accounts for both IPV survivors' needs and the practical challenges involved in providing them with adequate permanent housing. Incorporating the varied perspectives of the numerous housing providers, activists, policymakers, and researchers who have a stake in these issues, the book also lets IPV survivors have their say, expressing their views on what housing and services can best meet their short and long-term goals. Researchers Hilary Botein and Andrea Hetling not only examine the federal and state policies and funding programs determining housing for IPV survivors, but also provide detailed case studies that put a human face on these policy issues. As it traces how housing options and support mechanisms for IPV survivors have evolved over time, Home Safe Home also offers innovative suggestions for how policymakers and advocates might work together to better meet the needs of this vulnerable population. In 2014, The Urban Education Collaborative at the University of North Carolina at Charlotte hosted its first biennial International Conference on Urban Education (ICUE) in Montego Bay, Jamaica. In 2016, the second hosting of the conference took place in San Juan, Puerto Rico. Additionally, in 2018, the third hosting of the conference took place in Nassau, Bahamas. These solution-focused conferences brought together students, teachers, scholars, public sector and business professionals as well as others from around the world to present their research and best practices on various topics pertaining to urban education. With ICUE's inspiration, this book is a response to the growing need to highlight the multifaceted aspects of urban education particularly focusing on common issues and solutions in urban environments (e.g., family and community engagement, student academic achievement, teacher preparation and professional development, targeted instructional and disciplinary interventions, opportunity gaps, culturally-relevant and sustaining practices, etc.). Additionally, with this book, we seek to better understand the challenges facing urban educators and students and to offer progressive initiatives toward resolutions. This unique compilation of work is organized under four major themes all targeted at critically addressing concerns that may inhibit the success of urban learners and providing solutions that have implications for curriculum design, development, and delivery; teacher preparation and teaching diverse populations; career readiness and employment; and even more nuanced issues related to foster care, undocumented students and mental health, sustainable consumption, childhood marriage, food deserts, and marine life and urban communities. Would you like to share a \$500 billion reward? It might sound too good to be true, but this is the benefit to society of adopting the Quincy Solution with its proven practices to dramatically reduce domestic violence crime. Barry Goldstein has spent his career working to prevent abuse so he knew how to synthesize history and research about practices that stop domestic violence with medical research about the enormous health impact from stress related to domestic violence and child abuse. Barry started by reviewing the successful practices in Quincy, San Diego, and Nashville. Domestic violence is not inevitable, and it is not surprising it can be prevented with a group of best practices. He updated the proven practices with new research, technology, and inclusion of the custody courts. The primary obstacle was inertia and money. Then the ACE (Adverse Childhood Experiences) research established that children exposed to domestic violence, child abuse, and other traumas suffer more illnesses and injuries throughout their lives. We can reduce societal problems like cancer, heart disease, substance abuse, and crime--and dramatically improve our economy.

This is the Quincy Solution. Domestic violence is not inevitable. The Quincy Solution is based on successful practices in Quincy, Nashville, and San Diego so we know it works. The \$500 billion in annual savings from the Quincy Solution comes from prevention of illnesses and injuries, reduced crime, and victims reaching their economic potential. The Quincy Solution is more than an absence of abuse. Women and children will be safe in their homes and free to reach their potential. ABOUT THE AUTHOR: Barry Goldstein has dedicated his career to stopping men's violence against women and preventing the mental, emotional and physical trauma it inflicts on their children. A passionate and sought-after speaker, Barry's the author of four other books on domestic violence. "I can't help but think of all the courageous women who died and all the anguished faces of the children they left behind -- who might have been saved by this book."~ Rita Smith, Former Executive Director, National Coalition Against Domestic Violence "Barry Goldstein compiles shocking data showing how our legal system enables violence against women and children. Buy this book."~ Wendy Murphy, New England Law Boston, Author "And Justice For Some" "Domestic violence can be stopped. This book proves it."~ Andrew Willis, Survivor, Founder Stop Abuse Campaign "Barry Goldstein has eloquently captured the crisis that is domestic violence in America today, but his real gift is that of hope." ~ Sarah Buel, Survivor, Advocate, Law Professor and former Quincy Prosecutor "A must-read for advocates, police officers, lawyers, judges and anyone who cares about saving the lives of domestic violence victims." ~ Lt. Mark Wynn (ret), Nashville PD "A long-awaited, desperately-needed gift to battered women and their children. This plan could become the Holy Grail of custody litigation."~ Mo Therese Hannah, PhD, Chair of the Battered Mothers Custody Conference "Preventing domestic violence can interrupt the cycle of violence that harms children, families and communities. It's critical to use science to demonstrate what works, then move from science to practice."~ Linda C. Degutis, DrPH, MSN, Former Director, NationalCenter for Injury Prevention and Control, CDC "Shocked to learn the courts don't already make the health and safety of children priority one when deciding custody and visitation."~ Kelly Rutherford Actress Sales of this book support the National Coalition Against Domestic Violence and the Stop Abuse Campaign's implementation of the Quincy Model. -- Barry Goldstein It appears that many of the problems plaguing the Federal Student Aid Programs are also undermining the Pell Grant program, not so much from dishonesty on the part of students, but by dishonesty on the part of schools. This document presents testimony and prepared statements concerning the allegations of fraud, abuse, and mismanagement in the Federal Pell Grant program and the effectiveness of the Department of Education in detecting and responding to these problems. Two-thirds of the document is an appendix of 96 exhibits of selected documents, letters, affidavits, and reports from witnesses in order of their appearance before the committee. Among the witnesses testifying before the committee were the following individuals: Senator Claiborne Pell of Rhode Island; Richard C. Stienner, Director of the Office of Special Investigations, U.S. General Accounting office; James B. Thomas, Jr., Inspector General, U.S. Department of Education; David A. Longanecker, Assistant Secretary, Office of Postsecondary Education, U.S. Department of Education; and Sister Janet Fitzgerald, President of Molloy College, Long Island, New York.
