It's a question that many educators, like kindergarten teacher and literacy coach Cathy Mere, are starting to ask. Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts, but Cathy found that she needed to find other ways to help students gain independence. While maintaining guided reading as an important piece of their reading program, teachers need to offer students opportunities during the day to develop as readers, to learn to choose books, to find favorite genres and authors, and to talk about their reading. In More Than Guided Reading, Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing it at the heart of literacy learning?not only providing more time for students to discover their reading lives, but also shaping instruction to meet the needs of the diverse learners in her classroom. By changing the structure of her day, Cathy found she was better able to adjust the support she was providing students, allowing time for class focus lessons, conferences, and opportunities to share ideas, as well as reading from self-selected books. The strategies, skills, and understandings acquired in reader's workshop. The focus lesson is the center of the workshop. It is often tied to a read-aloud and connected to learning from the previous day, helping to build on and extend thinking, and develop independence over time. This thoroughly practical text offers numerous suggestions for lessons, questions for conferences, and ideas for revamping guided reading groups. It will help teachers create a mix of instructional components in their reading workshops, and provoke school-wide conversations about the place of guided reading in a complete literacy curriculum. A legendary NBA and beloved teammate shares his hard-earned wisdom about finding your true purpose and mastering your game, whatever that game might be. Chris Bosh is on any list of the Top 100 NBA players of all time--time All Star, two-time Finals winner, Olympic gold medalist, and currently the league's Global Ambassador. Always an uncommonly philosophical NBA star, he found himself needing all the mindfulness he could muster in 2017, when his career was cut short at its prime by a freak medical condition. Suddenly, he was thrown out of work that had given so much more than just a livelihood, and had to think deeply about his identity in and out of the game. This game had taught him so much; what could he make of it all? Out of that place of deep reflection came an uncommon book for a retired superstar to write. While it has the best elements of a memoir--the personal stories of the great players and coaches, from LeBron and Kobe to Pat Riley and Coach K, and the accounts of some of the most extraordinary competitive moments--it is really a wisdom book, a blend of *The Inner Game of Tennis*, *Vivian Marsalis's To a Young Jazz Musician*, and *Rilke's Letters to a Young Poet*. It is rich with insight about basketball, but even richer with insight about life. It's a book about finding a purpose that is deep and real, not just an external, and about navigating success and failure as the twin mirages they are--pushing past fear, pain, and fatigue to the pure flow of sustained accomplishment in a mesh with teammates who have given their lives to the same thing. Chris Bosh found that flow, and sustained it at the highest level. He misses basketball because he has no regrets. Deep, honest, unflinching, this book is his friend's hand up to those coming up behind him, whatever their pursuit might be. This informative book teaches early readers about the important impact that government has on our lives. Readers will learn about taxes, the three branches of government, voting, and more through bright images and supportive text.
