Archived in a folder on award-winning author Alejandro Zambra's desktop are 11 stories of liars and ghosts, armed bandits and young lovers. Intimate, mysterious, and uncanny, these stories reveal a mind that is as undeniably singular as it is universal. Together, they constitute the debut short-story collection from Zambra, whose first novel was heralded as a "bloodletting in Chilean literature." Whether chronicling the return of a mercurial godson or the disappearance of a trusted cousin, the worlds of these stories are so powerful and

deep that the works might better be described as brief novels. *My Documents* is by turns hilarious and heart-stopping, tragic and tender, but most of all, it is unflinchingly human and essential evidence of a sublimely talented writer working at the height of his powers. The massacre at My Lai on March 16, 1968 continues to haunt students of the Vietnam War as a moment that challenges notions of American virtue. James Olson and Randy Roberts have combed unpublished testimony and gather a collection of eyewitness accounts from those who were at My Lai and reports from those who investigated the incident and its cover-up. *My Documents* is the latest work from Alejandro Zambra, the award-winning Chilean writer whose first novel was heralded as the dawn of a new era in Chilean literature, and described by Junot Díaz as “a total knockout.” Now, in his first short story collection, Zambra gives us eleven stories of liars and ghosts, armed bandits and young lovers—brilliant portraits of life in Chile before and after Pinochet. The cumulative effect is that of a novel—or of eleven brief novels, intimate and uncanny, archived until now in a desktop folder innocuously called “My Documents.” Zambra’s remarkable vision and erudition is on full display here; this book offers clear evidence of a sublimely talented writer working at the height of his powers. This book is an overview of important concepts for working with Windows XP. The standard edition covers topics such as customizing the Windows XP interface, working with applications and documents, managing files and folders and the internet. Foreword: “Through this publication, I mainly present in a photographic form and process my dossiers relative to the fraudulent crossing of the state frontier from the time of the Ceaușescu regime of the Romanian national communism, namely between 1986 and 1989, in the measure and forms in which I could procure them from the respective judiciaries. The documentary-historical value of the documents is twofold. In the relation of the Ceaușescu regime, they partly mirror the lawful and unlawful activity of the authorities competent in the causes of fraudulent crossing of the state frontier, namely the frontier guards, militia, prosecution and the judiciary. And in the relation of my person, on the one part, they corroborate and supplement the non-fictional character of my four books written about my four illegal fleeing attempts and their penal consequences, on the other part, they corroborate my hypothesis according to which the national secret political organizations pursue not only a national secret policy referred to the “nation”, but also personal secret policies referred to the target persons selected by them.”

Originally published in 1930, this book contains the text of Old English and Norse documents pertaining to events around the Battle of Maldon, which resulted in defeat for the Anglo-Saxons, led by Aethelred the Unready. A translation into modern English is provided on the facing page of each page of original text. This book will be of value to anyone with an interest in historic Anglo-Saxon relations with the Norse. Federico

Chabod (1901-1960) was one of Italy's best-known historians, noted for his study of Italian history in a European context. This is the first English translation of his most important book. Although he carried out his extensive archival research for this work from 1936 until 1943, the fall of fascism and Chabod's active participation in the Resistance delayed its completion. When it was published in 1951, it was immediately hailed as a masterpiece. Chabod intended to write a new kind of diplomatic history-- one in which political history is seen as part of a larger historical whole. He does not present a detailed chronological account of Italian foreign policy during the period studied, but rather the "moral and material" underpinnings of that policy. In fact, he crafts a highly developed portrait of an age, with the real subjects being the Italian state and society, the ruling class and political culture. This work offers readers a superb picture of post-Risorgimento Italy and an outstanding example of Chabod's historiographical method. Originally published in 1996. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. Fourteen years since its establishment, the work of the African Commission on Human and Peoples' Rights has not received the attention that should have been paid to its important contributions towards the promotion and protection of human rights in Africa. The aim of this publication is to provide not only the basic documents, but also the less well known material related to the jurisprudence emanating from the consideration of communications. This volume therefore includes, amongst other material, the twelve activity reports adopted by the Commission, resolutions, and final communiqués from the sessions. This is the first attempt to reproduce comprehensively the many documents of the Commission adopted since its inception in 1987. It will be an essential reference for academics, students, and practitioners. The publication is produced in collaboration with the African Society for International and Comparative Law, the Centre for Human Rights at the University of Pretoria and Interights in London. Award-winning scholars and veteran teachers Deborah Gray White, Mia Bay, and Waldo E. Martin Jr. have collaborated to create a fresh, innovative new African American history textbook that weaves together narrative and a wealth of carefully selected primary sources. The narrative focuses on the diversity of black experience, on culture, and on the impact of African Americans on the nation as a whole. Every chapter contains two themed sets of written documents and a visual source essay, guiding students through the process of analyzing sources and offering the convenience and value of a "two-in-one" textbook and reader. English Historical Documents is the most ambitious, impressive and comprehensive collection of documents on English history ever published. An authoritative work of primary evidence, each volume presents material with exemplary scholarship. Documents include treaties, personal letters, statutes, military dispatches, diaries, declarations, sermons, charters, grants, guild regulations, and voting records. A general index to each volume illustrates the period under review and critical bibliographies have also been added. Furnished with genealogical tables, chronologies, and maps, English Historical Documents is essential as a primary-source reference. A "brilliant, innovative, beautiful" (The Guardian) book from the acclaimed author of Chilean Poet "Dazzling . . . a work of parody, but also of poetry." —The New York Times Book Review NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR, THE GUARDIAN, AND THE IRISH TIMES "Latin America's new literary star" (The New Yorker), Alejandro Zambra is celebrated around the world for his strikingly original, slyly funny, daringly unconventional fiction. Now, at the height of his powers, Zambra returns with his most audaciously brilliant book yet. Written in the form of a standardized test, Multiple Choice invites the reader to respond to virtuoso language

exercises and short narrative passages through multiple-choice questions that are thought-provoking, usually unanswerable, and often absurd. It offers a new kind of reading experience, one in which the reader participates directly in the creation of meaning, and the nature of storytelling itself is called into question. At once funny, poignant, and political, Multiple Choice is about love and family, authoritarianism and its legacies, and the conviction that, rather than learning to think for ourselves, we are trained to obey and repeat. Serious in its literary ambition and playful in its execution, it confirms Alejandro Zambra as one of the most important writers working in any language. NAMED A BEST BOOK OF THE SUMMER BY THE WALL STREET JOURNAL, ELLE, THE HUFFINGTON POST, THE MILLIONS, VOX, LIT HUB, THE BBC, THE GUARDIAN AND PUREWOW

Reimagining Utopias explores the shifting social imaginaries of post-socialist transformations to understand what happens when the new and old utopias of post-socialism confront the new and old utopias of social science. This peer-reviewed volume addresses the theoretical, methodological, and ethical dilemmas encountered by researchers in the social sciences as they plan and conduct education research in post-socialist settings, as well as disseminate their research findings. Through an interdisciplinary inquiry that spans the fields of education, political science, sociology, anthropology, and history, the book explores three broad questions: How can we (re)imagine research to articulate new theoretical insights about post-socialist education transformations in the context of globalization? How can we (re)imagine methods to pursue alternative ways of producing knowledge? And how can we navigate various ethical dilemmas in light of academic expectations and fieldwork realities? Drawing on case studies, conceptual and theoretical essays, autoethnographic accounts, as well as synthetic introductory and conclusion chapters by the editors, this book advances an important conversation about these complicated questions in geopolitical settings ranging from post-socialist Africa to Eastern Europe and Central Asia. The contributors not only expose the limits of Western conceptual frameworks and research methods for understanding post-socialist transformations, but also engage creatively in addressing the persisting problems of knowledge hierarchies created by abstract universals, epistemic difference, and geographical distance inherent in comparative and international education research. This book challenges the readers to question the existing education narratives and rethink taken-for-granted beliefs, theoretical paradigms, and methodological frameworks in order to reimagine the world in more complex and pluriversal ways. Intended for high school and undergraduate students, this work provides an engaging overview of the abolitionist movement that allows readers to consider history more directly through more than 20 primary source documents.

- Includes a concise introduction that summarizes the critical points in the history of slavery and abolition
- Provides carefully selected key documents that represent the full range of American thoughts on slavery
- Supplies useful annotations that guide the reader's analysis and shows how historians deconstruct documents
- Presents information and materials that help readers to understand the forces that supported and opposed slavery, thereby giving students a better grasp of American history in general
