The ultimate guide to leading remote employees and teams, tackling the key challenges that managers face—from hiring and onboarding new members to building culture remotely, tracking productivity, communicating speedily, and retaining star employees *Accelerating Through the Crisis Curve* Leadership is all about others—inspiring them to believe, then enabling that belief to become reality. That’s the essence of Leadership U: it starts with ‘U’ but it’s not about ‘U.’ Those timeless words are timelier than ever today, as leaders look to accelerate through the crisis curve. As author Gary Burnison observes, “There will likely be more change in the next two years than we have seen in the last twenty.” Now, in

Leadership U: Accelerating Through the Crisis Curve, Burnison lays out a framework—his “Six Degrees of Leadership”—to show leaders how to create change. Anticipate – foreseeing what lies ahead, amid ambiguity and uncertainty that are throttled up like never before. Navigate – course-correcting in real time, to keep the organization on an even keel. Communication – constantly connecting with others; the leader is both the messenger and the message. Listen – breaking down the organizational hierarchy to gather insights at all levels—especially what the leader doesn’t want to hear. Learn – applying learning agility, to “know what to do when you don’t know what to do.” Lead – empowering others in a bottom-up culture that is more nimble, agile, innovative, and entrepreneurial than ever before. Only by embracing these truths can leaders master another ‘U’—the “crisis curve” that will completely disrupt the business landscape. The world has changed—forever. The old days are fine to reminisce about, but you can’t stay there. Today leadership means becoming comfortable with being uncomfortable. As Burnison says, when a door closes, leaders cannot afford to stand there, staring at it. It’s a “get up or give up” moment. For leaders, the only choice is to find and open another door. Leadership U defines and inspires the pathway through that door. Laurie Beth Jones, management expert and business consultant extraordinaire, noticed that none of the

personality/temperament profiles in the market today, none of them provided a tool that was simple, visual, intuitive, and powerful enough to create a shift in thinking as well as relating. So she developed The Path Elements Profile (PEP), which can be used in recruitment, placement, retention, team building, and customer relations as businesses transform many individuals into a harmonizing, humming force for good. Within the framework of the book will be scriptural examples as well as modern day business stories. Based upon the elements of Earth, Water, Wind and Fire, the Path Elements Profile helps determine both individual and team behavioral tendencies that affect everything from career choice to daily "to do" lists. We choose to act on what we value, and each element type values very different things: Fire personality types love and thrive on challenge Water personality types thrive on harmony and calm Wind personality types love chaos and change Earth personality types love order and structure PART I of this book provides an overview of the elements themselves as individual personality types. Jones will explain each element's strengths and challenges and will have the readers identify their own as well as those of their team members. Then in PART II, readers will assess their teams. There are 28 one-day principles, that, if followed will take readers on a simple yet radical journey to a transformed workplace. INCLUDES an Assessment Test

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become

leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the benefit of others. The 5 Levels of Leadership are: 1. Position—People follow because they have to. 2. Permission—People follow because they want to. 3. Production—People follow because of what you have done for the organization. 4. People Development—People follow because of what you have done for them personally. 5. Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader. Folkman took when they wrote their now-classic leadership book *The Extraordinary Leader*—and it's a fact they reinforce in this new, completely updated edition of their bestseller. Maxwell's latest book will enhance the lives of leaders, professionals, and anyone who wants to achieve success and personal growth. We often treat the word capacity as if it were a natural law of limitation. Unfortunately, most of us are much more comfortable defining what we perceive as off limits rather than what's really possible. Could it be that many of us have failed to expand our potential because we have allowed what we perceive as capacity to define us? What if our limits are not really our limits? In his newest book, John Maxwell identifies 17 core capacities. Some of these are abilities we all already possess, such as energy, creativity and leadership. Others are aspects of our lives controlled by our choices, like our attitudes, character, and intentionality. Maxwell examines each of these capacities, and provides clear and actionable advice on how you can increase your potential in each. He will guide you on how to identify, grow, and apply your critical capacities. Once you've blown the "cap" off your capacities, you'll find yourself more successful--and fulfilled--in your daily life. Following the success of Lean In and Why Women

Should Rule the World, the authors of the bestselling Womenomics provide an informative and practical guide to understanding the importance of confidence—and learning how to achieve it—for women of all ages and at all stages of their career. Working women today are better educated and more well qualified than ever before. Yet men still predominate in the corporate world. In The Confidence Code, Claire Shipman and Katty Kay argue that the key reason is confidence. Combining cutting-edge research in genetics, gender, behavior, and cognition—with examples from their own lives and those of other successful women in politics, media, and business—Kay and Shipman go beyond admonishing women to "lean in." Instead, they offer the inspiration and practical advice women need to close the gap and achieve the careers they want and deserve. In The 360 Degree Leader Workbook, Maxwell addresses that very question and takes the discussion even further. You don't have to be the main leader, asserts Maxwell, to make significant impact in your organization. Good leaders are not only capable of leading their followers but are also adept at leading their superiors and their peers. Debunking myths and shedding light on the challenges, John Maxwell offers specific principles for Leading Down, Leading Up, and Leading Across. 360-Degree Leaders can lead effectively, regardless of their position in an organization. Maxwell shows that talent is just the starting point for a successful impact in any organization. It's what takes you beyond your talent that matters. People everywhere are proving him right. Read the headlines, watch the highlights, or just step out your front door: Some talented people reach their full potential, while others self-destruct or remain trapped in mediocrity. What makes the difference? Maxwell, the go-to guru for business professionals across the globe, insists that the choices people make—not merely the skills they inherit—propel them to greatness. Among other truths, successful people know that: Belief lifts your talent. Initiative activates your talent. Focus directs your talent. Preparation positions your talent. Practice sharpens your talent. Perseverance sustains your talent. Character protects your talent. . . . and more! It's what you add to your talent that makes the greatest difference.
